About ARKA JAIN University

ARKA JAIN University, the 1st Private University of Jharkhand (Kolhan Region) established by the JHARKHAND State Legislature under "The ARKA JAIN University Act", recognized by **UGC** and now approved by **AICTE**, is an example of excellence. The University situated 13 kms from steel city, Jamshedpur at Gamharia offers multi-disciplinary programs designed in a way to shape the brilliant minds of today into socially-conscious managers, leaders and entrepreneurs of tomorrow. The use of highest-quality research-led teaching and learning methods helps students evolve and be ready for the requirements of the industry because we believe – **You're one of a kind, So are WE.**

Bachelor of Optometry – (B.Optom)

AJU School of Health & Allied Science aims at skill based education with a curriculum designed to prepare degree graduates in Optometry for lifelong learning and leadership capabilities with research based teaching procedures. The Dept. of Optometry is enlisted by **Optometry Council of India (O.C.I.)** & member of Association of school & college of Optometry (ASCO) India. AJU B. Optometry Course is a 4-Year full time regular degree program with internship in the last two semesters. The School of Health & Allied Science is dedicated with a team of highly qualified and well trained faculty and staffs from different department working towards academic growth through research and development.

Optometry is a health care profession that is autonomous and concerned especially with examining the eye for defects and faults of refraction, with prescribing correctional lenses, prisms, eye exercises and/or visual rehabilitation care for visually impaired, with diagnosing diseases of the eye, and with treating such diseases or referring Speciality them for treatment. Optometry as a profession has the primary public health responsibility for eliminating uncorrected refractive error (the leading cause of vision impairment globally). As primary eye care practitioner, optometrists have a vital role in detecting potentially serious eye diseases such as cataract, glaucoma and Diabetic retinopathy, age-related maculopathy, as well as general health conditions such as hypertension, diabetes, Thyroid etc which means optometrists can also help to alleviate the burden of other causes of blindness and diseases through diagnosis & referral.

Optometry is rated among the top ten Health profession in Developed Countries.
