Major Improvement Areas identified as Outcome of Existing Student Feedback on University Resources & Curriculum

Committee constituted for analysis of Exit Student Feedback have identified and recommended following key improvement areas:

1

Improvement Area : Career Guidance and Placement Activities

It was recommended by committee to further strengthen Career Guidance and Placement Cell, so that maximum placement opportunities could be provided to students. It was recommended to conduct the career guidance seminar and workshop especially for final year students at regular interval by inviting various industry resource persons. This should be jointly done by individual departments and career development and placement cell

2

Improvement Area : Quality of Reading and Reference Material & Employment Orientation in Syllabus

It was further recommended by committee to increase the option of various electives in all the courses for which syllabus is designed by Board of Studies of the University. Considering the limitation of changing the syllabus on immediate basis, it was recommended that awareness session about MOOC portal like SWAYAM / COURSERA / LINKDIN Learnings / UDEMY etc. must be organized, so that students can make aware about various option of free and paid learning resources on various range of courses, which is available online. It is further commended to various BOS to include the reference materials in the lecture plan.

3

Improvement Area : Canteen and Sports Facilities

It was recommended to improve the present infrastructure of Canteen and Sports facilities. It was suggested to make sufficient budgetary allocation to construct a new centralized canteen with at least 200 seating capacity, with separate seating area for university staff. Canteen mess may be outsourced to a reputed vendor. It is further recommended to plan a separate space for practice of sports like Football, Volleyball and indoor games like Table Tennis, Chess, Carom etc.

Committee has recommended IQAC cell to present action taken report on above recommendation in the quarterly IQAC cell meeting
