Clubs and organizations are a vital part of University life!

ARKA JAIN University have a very active student club and organizational system and all students should be strongly encouraged to pursue club and organizational membership opportunities to help them enrich their college experience.

Integrated mode of Teaching & Learning

Our teaching approach incorporates syndicate learning, case studies, regular assessments and immersion in real-life industry projects designed to deepen students knowledge in a particular area of interest and to expose them to the real business world.

Workshop, Seminars, Guest Lectures, Industry Interface - At ARKA JAIN UNIVERSITY, workshops and seminars are conducted throughout the year. Experts from industry and academicians are invited to deliver lectures to our students. Students are also encouraged to organize seminars & give presentations to improve their technical and presentation skills. Eminent speakers from various walks of life including Industry, Academia, Social Sector, Public Sector, etc. visit our University and share their expertise with students and guide students to help them to become better managers.

Speaker Series - Speaker series are conducted in every semester. During the series, experts from different specialised fields of Computer Data Science interact with the students on the topics of high technological advances, academia-industry relations, research initiatives, data warehousing and mining, Data science, Artificial Intelligence, IoT, etc.

Projects / Mini-Projects - Mini projects and Projects are part of regular curriculum of BCA and MCA program at AJU. Students are exposed to all the latest technologies while developing Projects at our world class lab facilities in the University. Projects are mentored in various areas of technology like App development, web designing and development, data mining, etc. Based on the Students' area of interest projects are guided under mentorship of our Professors.

Coding Competition - Coding competition is an integral part of BCA & MCA programs and is regularly conducted in every semester. All the students are encouraged to participate in this competition which helps the students to test upon their skills in different domain areas, like coding, Data Science, Machine Learning, Artificial Intelligence, IoT, etc. One of the primary elements of this competition is RE-CODING. In this competition, program codes are given in a particular language and the participants are asked to re-code it in some other language.

Tech-Minds - Extracurricular activities of great passion and value which gives students an opportunity to develop their skills. Different levels and rounds of technology-based activities like quizzes, presentations, cultural etc. are organized from time to time. Technical talks are also the integrated part of this activity. This activity is planned with a purpose of letting everyone be aware of the importance of having a strong foundation in technical skills, which is mainly targeted when it comes to the industry, also with a perspective of testing each participant's knowledge about existing software and technical skills.
