

## Report on Class Activity Held on 13.03.2021

<b>Date of Event</b>	13.03.2021
<b>Name and Type of Event</b>	<b>Online Education, Work from Home: Have We Arrived In Virtual World?</b>
<b>Conducted by</b>	Ms.Harshita Gupta
<b>No. Of Participant</b>	30

An Interactive Group Discussion session was conducted for Semester II Students on the current topic related to the current situation of the Pandemic . Students came up with an overview and different perspective that The 21<sup>st</sup> century has opened the floodgates of technological diversities .We can see and say all across the world when in pandemic era all education institution and offices were closed,only online education and office work is working .Some even said that we have arrived in virtual world but it is the need of the time .

Virtual Platforms save our time and money and gives the opportunity to do other works.yes, we have arrived in the virtual world but it is the need of the time.

Nothing is wrong with it .infact we should take its advantage so that we come to know about new things.

there are some barriers in physically structured work and education but when it comes to virtual platforms things get easy and handy for us.

Now on the virtual platform, we don't need to go out to attend any physical class or work because everything is available on our devices within the comfort of our own home.

The 21st century has opened the floodgates of technological diversities. We can see and say all across the world when in pandemic era all education institution and office were closed, only online education and office work is working.

Many companies allow their employees to work in virtual mode or work from home.

Due to advancement in the technologies, We have enough of resources to continue the work-routine even without going to the office or schools.

But, has pandemic given us glimpses of how the virtual world operates?

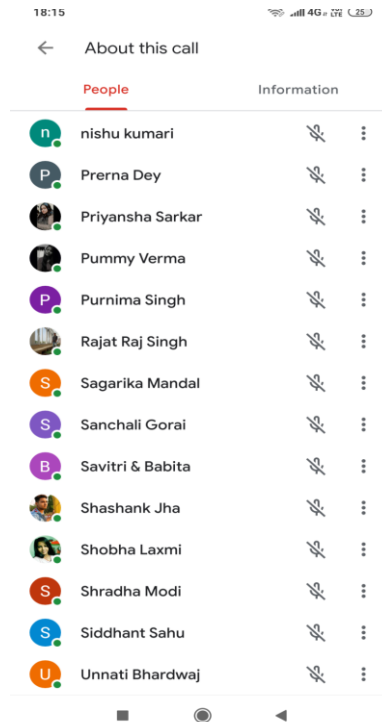

It showed us how we could make changes in our working pattern.

Virtualization has several benefits like it saves our time, decreases pollution.

And infrastructure structural benefits. Cause of virtualization we get to know about many popular technologies. While employees in the IT sector is well aware of this trend, but it is a totally new thing in the public sector and other practices. Working from the comfort of home

allows employers in cutting down their establishment costs and enhance productivity as employees get more opportunity to maintain work-life balance and saving commute time. of virtualization
