Career guidance Session for Students

A one-day online career guidance session was organized to provide a platform to enrich and acquire the career guidance information for the B. Tech students of 6th semester of all branches to know more about the new research and technologies in the field of Engineering. The main aim of the seminar is to provide insightful knowledge about internships and its relevance with career. Students are benefited by the talk related to entrepreneurship, unicorn industries, current scenario of industry and future expectation. The session was based on the objective to direct students towards “industry ready” trend.
