<b>Date of Event</b>	05.06.2021
<b>Name and Type of Event</b>	Webinar on Role of Remote Sensing on Natural Resource Management
<b>Conducted by</b>	Dr. Nishi Kant
<b>No. Of Participant</b>	98

**Webinar on Role of Remote Sensing on Natural Resource Management**

Department of Biotechnology, School of health and allied science celebrated Environment DAY on 5<sup>th</sup> June 2021. The day is an opportunity to spread awareness about the Environment and issues related to it and to spread awareness about need to protect the environment. For the celebration a webinar was conducted. Mr. Vaibhav deoli (Assistant Professor of Dev Bhoomi Institute of Technology Dehradun) was invited as a Chief speaker and he presented a talk and his work on “Role of remote sensing in natural resource management”. 98 participants registered for the event. Remote sensing helps in the systematic collection of data, surveys, and analysis of such data. The integrated use of remotely sensed data enables to develop management plans for a variety of natural resource management applications. This event was a great success.

# ROLE OF REMOTE SENSING ON NATURAL RESOURCE MANAGEMENT

ORGANIZED BY:

School of Health Allied Science

**Saturday, 05 June 2021**

**11 am onward**

Event Coordinator: Dr. Nishi Kant, Assistant Professor, ARKA Jain University, Jharkhand

## Photos of the Event

**Chipko Movement**

- Chipko movement, also called Chipko andolan, nonviolent social and ecological movement by rural villagers, particularly women, in India in the 1970s, aimed at protecting trees and forests slated for government backed logging. The movement originated in the Himalayan region of Uttarakhand (then part of Uttar Pradesh) in 1973 and quickly spread throughout the Indian Himalayas.
