Practical Application of Machine Learning & its Deployment in Business Operation

A one-day National Webinar on *Practical Application of Machine Learning & its Deployment in Business Operation* was organized on 14th May 2021. It was organized on online mode using Google Meet platform. The speaker of the event was Mr. Sachchidanand Kumar, Senior Analyst and Application Developer at TATA Steel Jamshedpur, Jharkhand. The webinar was coordinated by Ms. Alka Kumari, Dept. of Computer Science &IT.

The speaker for the event Mr. Sachchidanand Kumar has over 10 years of work experience in various fields of Artificial Intelligence, Machine Learning and Data Science. He is also an eminent speaker and research scholar in the field of Artificial Intelligence and Data Science. He has been Team Leader and member of many innovative projects implemented in Tata Steel.

In this event, the practical application of machine learning technology in business operation was analyzed to transform the large data sets into knowledgeable and actionable intelligence. This information can be integrated with business processes and operational activities to respond to changing to market demands or business circumstances.

More than 70 participants from all over the computer science department participated in this webinar.

The session began sharp at 11 am. The event started with the welcome note by Ms. Divya Paikaray and Ms. Alka Singh. After the inauguration speech, Mr. Sachchidanand Kumar took over and shared his knowledge and information on Practical Application of Machine Learning & its Deployment in Business Operation. He also explained the concept of Machine learning along with Python coding for the practical applications. The session was of 2 hours and came to a close at 1 PM. The session was followed by a Vote of Thanks. A short Feedback Session was conducted for the participants after which Participation Certificates were awarded to them.
