Drug abuse refers to the use of certain chemicals for the purpose of creating pleasurable effects on the brain. There are over 190 million drug users around the world and the problem has been increasing at alarming rates, especially among young adults under the age of 30. Being in an educational environment, it's our duty to prevent any mind from adapting to any such addiction. As expressed by Bob Railey, "Drugs are the enemies of ambition and hope and when we fight against drugs we are fighting for the future."

Under the joint aegis of Arka Jain University and Young India Jamshedpur Chapter, an awareness session was organized in the context of drug addiction and healthy campus. Mr. Hari Om Gandhi, Senior Commandant of CISF and former Zonal Director of Narcotics Bureau of India was the chief guest.

Apart from the speeches on drug abuse, a street play was also staged by the students under the direction of Dr. Roopa Sarkar on the disadvantages of drug abuse. Shri Hari Om Gandhi said that narcotics are generally illegal drugs which affect the mood and behavior of a person. Substance abuse refers to the use of certain chemicals with the aim of producing pleasurable effects on the brain. He asked the students to avoid falling into any mischief and also informed about the legal action if caught. According to an estimate about 7 million people in India are victims of drug addiction which needs to be returned to the mainstream of the society.

Prof (Dr) SS Razi said that in the last few years the use of drugs and narcotic drugs for intoxication is increasing in India and it has taken the form of a formidable problem.
