Description & Flow of Events (including photos of the Event)

Department of MBA of ARKA JAIN University, was organized One-day seminar on Union Budget 2022 on 9.2.2022. Under the Knowledge Manthan Saturday Activity and 175 students from SCOM (MBA, BBA & B.Com) departments participated in the seminar

The first session was taken by Mr. Mukul Pandey and discussed the basic things about budget and job opportunities generated by the Government in the budget. Budget is an instrument that helps translate public policies into concrete actions and desired outcomes. It is a blue print for converting intentions into reality. Like any tool it needs continuous honing.

The budgetary practices in India have, however, largely remained unchanged over the years. A few 'innovations' such as the performance budgeting introduced in seventies as recommended by the first Administrative Reforms Commission and the subsequent 'zero based' budgeting have been outside the mainstream budgeting. The outcome budgeting introduced in 2005 has similarly remained on the margins. They have not had the desired impact on public expenditure management.

Second session was taken by Mr. Rajeev Sinha and discussed about the digital economy and fintech, technology enabled development, energy transition and climate action. The objective of Seminar Aligning India's macroeconomic growth with a focus on microeconomic level all-inclusive welfare. Complementing the macro-economic level growth focus with a micro-economic level all-inclusive welfare focus.
