**28.02.2022**

<b>Date of Event</b>	28-02-2022
<b>Name and Type of Event</b>	<b>Mentor Mentee Session SEM 1, 4 and 6</b>
<b>Conducted by</b>	Shruti, Anup Kumar Singh, Usha Kiran Barla
<b>No. Of Participant</b>	17

Mentor Mentee Sessions are conducted on a regular basis at the departmental level to build a better learning environment for the students. The faculties are assigned as mentors to each student; there is a one to one interaction with each student about their overall performance, personality, issues, behaviour, etc. The idea of this mentoring session is to help build a collaborative environment for better learning and resolve any issues which may be hindering the learning process. The mentor is able to understand the psyche of the student and engage in the suitable teaching pedagogy. The purpose of mentoring is aimed at overall development of the student. By virtue of transparency, understanding and trust we can create synergy between mentor-mentee by setting goals, decision-making, problem-solving and achieving goals. As both mentor and mentee grow with experience it's about learning not teaching. Thus this activity is enriching and satisfying for both.

As per the vision and mission statement of the University, AJU will work to ensure that students who complete its programs are well-trained and possess the foundational skills and values that will enable them to attain professional competency. Thus AJU has responsibilities to both the student and the faculty advisor to maintain and promote an environment that supports quality education and training. Effective mentoring is a cementing factor that leads to a dynamic relationship between the faculty advisor and the student.

SEM 1 had their examination upcoming in a few days and a number of students resolved their queries regarding the same. Students who had problem in presenting and public speaking were told to practice the same before any presentation. We advised most of the students to use their time efficiently when they are in the campus and use the lab infrastructure which is provided to them. Majority students were very outspoken and shared their issues with their mentors and they were well advised.
