JOURNEY WITH US TO AN EXCITING FUTURE

About TSTS

TVM Signalling and Transportation Systems Private Limited (TSTS) is a group company of Kyosan Electric Manufacturing Company Ltd., Japan. TSTS provides innovative and cost-effective engineering solutions for Metro, Mono, Freight, Urban and Mainline transportation needs around the globe.

We can extend a Concept to Commissioning solutions for Rail Transportation with expertise in Consultancy, Design, Supply, Execution, Support, Training, Operation and Maintenance to our customers. TSTS brings together the entire gamut of products that assure passenger safety and enables passenger comfort through world-class technologies in Signalling, Software and Hardware systems.

The senior executives of the company represent more than 150 years of combined Railway experience in India and the global market. Altogether, there are four components of the full-service infrastructure business, namely Signalling, Strategic & Transportation, Software and Manufacturing that can be combined in any permutation to provide an integrated capability to a client.

Achievements

- We Handle projects across five countries
