Conducted by	DR RUPA SARKAR
No. Of Participant	08

Library Hunt Day (Class Activity)

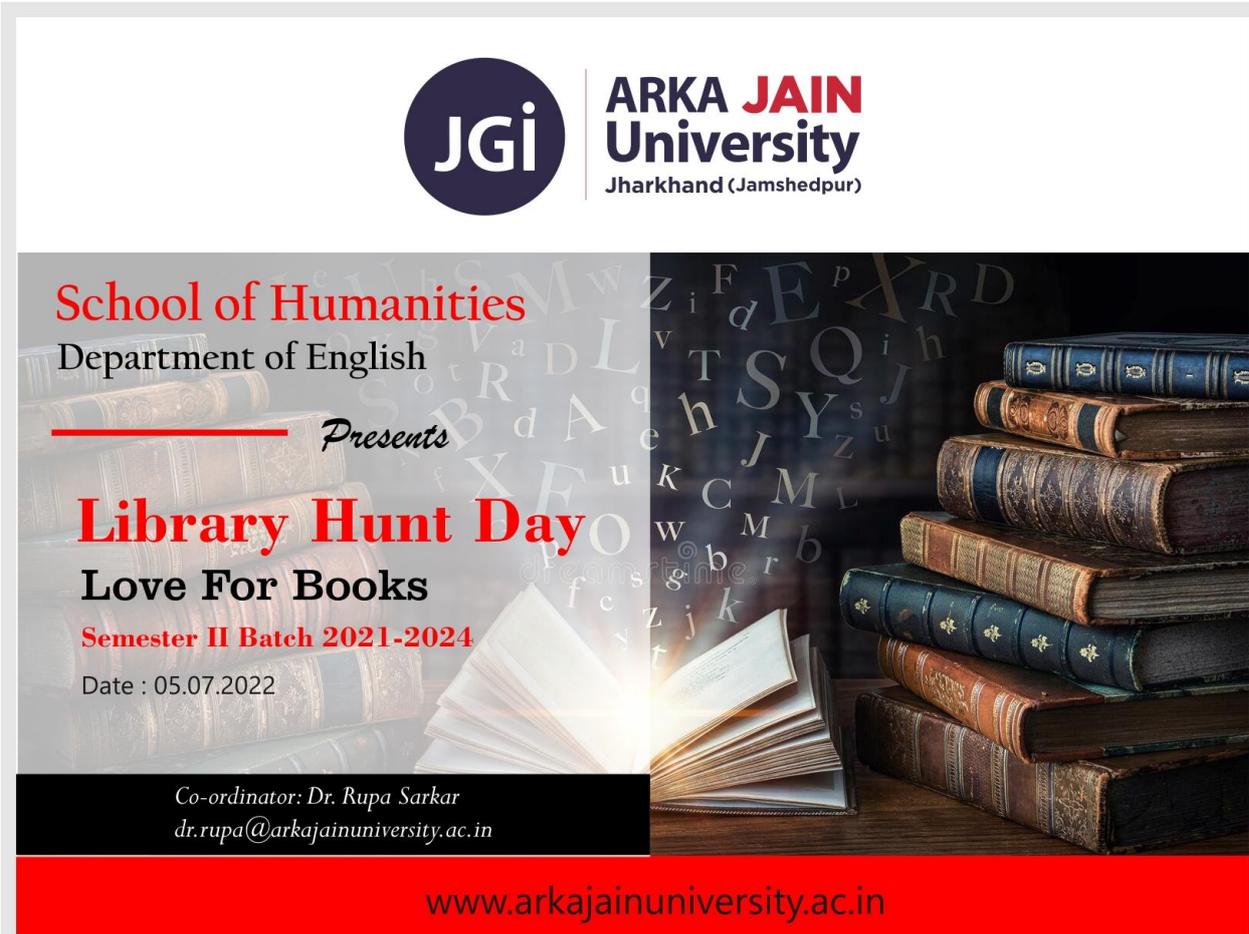

A library is a collection of sources of information and similar resources, made accessible to a defined community for reference or borrowing. It provides physical or digital access to material and may be a physical building or room, or a virtual space, or both. A library's collection can include books, periodicals, newspapers, manuscripts, films, maps, prints, documents, microform, CDs, cassettes, videotapes, DVDs, Blu-ray Discs, e-books, audiobooks, databases, and other formats. Libraries range in size from a few shelves of books to several million items. Sidney Sheldon perfectly describes: "Libraries store the energy that fuels the imagination. They open up windows to the world and inspire us to explore and achieve, and contribute to improving our quality of life."

The Batch of 2021-2024 (Semester II) of B A English students were given the task to explore the books kept in the University Central Library (ARKA JAIN University). The students enjoyed the task of exploring the book shelves of Dept of English and make a note of the number of books, the authors, publishers and the number of books.

The task was guided by Dr Rupa Sarkar (Associate Professor), Dept of English. Much obliged to the Head of the Dept. of English and the Head of the University Central Library (ARKA JAIN University).

Libraries store the energy that fuels the imagination. They open up windows to the world and inspire us to explore and achieve, and contribute to improving our quality of life.
