RESPONSIBILITIES & ROLE: RESEARCH ASSOCIATE

- Conduct timely and in-depth screening, research, and review of companies
- Learn the research methodology and processes quickly and apply that knowledge consistently
- Deliver on individual and team targets including production and quality as well as improve the Overall performance quarter on quarter
- Provide input and ideas for new data collection methods, product/process improvements and Quality initiatives.

Role: The Research Associate is involved in various ESG-related tasks such as collecting data on ESG metrics, analysing green products and services, and assessing negative corporate conduct across a wide variety of thematic areas. The entry-level researcher reads and processes volumes of data and picks out relevant information from regulatory filings, annual and corporate social responsibility reports, and websites to analyze, interpret, and store data on a web-based tool.

RESPONSIBILITIES & ROLE: DATA RESEARCH ASSOCIATE

- Review news, web and regulatory filings to create an accurate view of an event and quickly extract and enter relevant information in a web-based tool
- Quickly scan multiple documents for additional information and be able to compare against other sources and an internal database
- Complete data collection tasks within a specific dataset and process area such as PE, VC, M&A, People, Service
- Provider, Investor, Limited Partner, Funds, and News
- Learn methodology and processes quickly and be able to apply that knowledge consistently
- Understand and learn financial concepts and figures
- Interpret daily and weekly performance metrics and seek to improve personal performance
- Identify areas for improvement across all areas, including processes and tools.

Role: The Research Associate accurately and efficiently collects and enters data on companies, deals, people, funds, investors, and service providers across the entire private investment life cycle. The entry-level role reads and processes volumes of data and picks out relevant information from news, regulatory filings, and websites to collect key data points on financing rounds, company management, financials, service providers, etc. and enter those into a web-based tool.
