## IT'S TIME TO
## LEARN. INNOVATE. EXCEL.

Dream Campus Opportunity With Tally, India's leading business management software solution company, which today enables more than 2 million businesses worldwide.
**Join us in this exciting journey and make your mark in it.**

Over the last 35 years, we have come to be known as THE accounting software company in India. An estimated 7 or 8 out of 10 businesses in India use us as their system of choice. We also have a significant and growing international presence with teams in the Middle East, East Africa, South East Asia, and other South Asian Countries.

Over the next few years, we are hoping to impact the lives of several hundred million businesses across the globe with our vision of the future of business applications. Some other things you may want to know about us – **we have the largest partner network in the IT industry in India with over 28,000 partners. We are a growing family with over 1000+ people, and have offices across the country, in the Middle East, in Africa, and in South East Asia.** Our culture accepts, includes, and promotes diversity. With an inclusive recruitment process, we ensure equality, fairness, and empowerment for all recruits and employees to access and enjoy equal opportunities to grow, irrespective of their background. We encourage diversity of all kinds, including but not limited to nationality, religion, sexual orientation, gender identification, belief system, caste, ideologies, ethnicity, age, disability, and background. We take conscious effort to attract applicants from different diversity dimension groups to achieve and maintain a workforce that shows diversity across levels and functions.

- **Are you passionate about technology?**
- **Are you driven by an obsession to create products that delight millions of customers?**
- **Is engineering excellence part of your DNA wherein good enough is not good enough?**

**We are hiring for the position of "Trainee - Software Engineer", where the selected candidate will work on our Industry sector – Technology (Software Product) department.**

We are looking for the best and brightest fresh college graduates to join our team of highly motivated world class software engineers. In this role, you will help solve some of the most challenging engineering problems and deliver innovative SW platforms, products and web/mobile enabled world-scale cloud services that customers love to use.
