AJU offers multi-disciplinary programs which have been designed to shape up the students of today into socially conscious professionals, leaders and entrepreneurs of the morrow. The use of high quality, technology-ready, researched teaching-learning methods help students to evolve and be ready for the industry.

About The Department

The affluent and rather prolific Journalism & Mass Communication Programme of ARKA JAIN University are conducted at the department of Journalism and Mass Communication, which is one of the constituent departments under the School of Humanities. Today, the most popular Mass Communication program of AJU offers – BA (Hons) in Journalism & Mass Communication and Doctoral Research Program (Ph.D). Journalism & Mass Communication program leads the students to grow up with global knowledge and information industry, contemporary training and hands on experience with the media business industry in all major media genre and communication studies. It offers professional summer internship training to students for understanding the media market policy to build a bright career in the field of media studies and Mass Communication.

About the Workshop

The past is always present in photographs. Moments are frozen, and the mind is melted. In this workshop, participants will learn that it is a representation that stands for something else. Anyone with a camera, a mind to wander, and an eye to stare is invited to the class. We invite workshop enthusiasts to transform memories into frozen visions. Along with introducing the participants to the aesthetics of photography, this workshop will also challenge them to carve their storytelling abilities via images. This three day workshop is an ultimate guide to learn about fundamentals of photography, cinematography and camera handling. This workshop offers the participants an excellent chance to learn the basic grammar of photography, camera operation, composition techniques and camera handling methods. This workshop aims to introduce our learners to the world of skills and techniques in the field of photography & cinematography. The prime objective of this three day workshop is to teach the participants a new set of skills and methods that one may use to improve their understanding or general knowledge of photography & photojournalism. This newly acquired knowledge of essential concepts would help them to convert their moments into memories most effectively. This workshop would pave a path in the field of visual elements as well as telegraphic mindset.

Key Objectives of the Program

- To inculcate photography & cinematography skills among students.
- To encourage the young minds to follow their passion on photography & cinematography.
- To provide the students a platform to showcase their talent & photography skills.
