Report on– Play on Biological Studies of Crude Drugs as Appetizer and Carminatives
Held on – 09.02.2023

Date of Event	09.02.2023
Name of the Event	Play on Biological Studies of Crude Drugs as Appetizer and Carminatives
Type of the Event	A Participative Learning Program for the Technical Skill Development (Slow Learner/ Advance Learner)
Conducted by	School of Pharmacy
No. Of Participant	28

OBJECTIVE: To make the class room interesting by the advanced learners for the week learners.

DETAILS: A faculty must adapt a teaching methodology such that he/she may not lose the attention of the slow learners and turn off the advanced learners. To ensure that slow learners and advanced learners are taken care as per their needs. Indian classrooms are typically mixture of varied ability groups of students. The roots of this phenomenon can be traced back to their socio-cultural and techno-economic backgrounds. They basically differ from one another in terms of cognitive development and therefore their capacity to grasp domain knowledge and to critically evaluate are bound to differ. Their ability to articulate their understanding of the subject also differs. Curriculum transaction to such a mixed classroom is not possible since one-size-that-fits all approach does not work well to the satisfaction of all the students in the class. Keeping these sensible situation in view and for the development of students of both categories, **School of Pharmacy** conducted a session “Play on Biological Studies of Crude Drugs as Appetizer and Carminatives” on **9th February 2023** and the same session also has planned to repeat the same on **16th Feb, 23rd Feb 2023 and 2nd March 2023**. Students instructed to bring the posters of herbal Appetizer and Carminatives drawn by themselves on chart paper. By holding the same they need to play the role of the drug narrating its local name, biological source and uses. The students eagerly participated and the session was quite interesting. The session was guided by Dr. Jyotirmaya Sahoo and supported by Asutosha Parida.

OUTCOMES: Students demanded to conduct such kind of activities in regular frequencies for the better practice of the course.
