PROGRAM OUTCOMES AND PROGRAM SPECIFIC OUTCOMES

BA (Hons) Fashion Design-Semester-I

PROGRAM OUTCOMES

[PO.1]. Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

[PO.2]. Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

[PO.3]. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

[PO.4]. Effective Citizenship: Demonstrate empathetic social concern and equity centered national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

[PO.5]. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

[PO.6]. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

[PO.7]. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes.

PROGRAM SPECIFIC OUTCOMES

[PSO.1]. Understanding Art, Fashion and Design Concepts and theories: Understanding in detail, the contents of various areas of Fashion, Art and Design and how the concepts have changed over a period of time.

[PSO.2]. Design Thinking and Sensibility: Take design decisions across various projects. Being able to think out of the box, follow the design process to create aesthetically soothing designs. Display design skills, knowledge and the understanding in the creative sector. Understanding of Art, Design and Creativity in regional and global context. Be sensitized towards aesthetics and fashion.

[PSO.3]. Application of Design Concepts: Implementing creative thinking and design concepts in the design environment and beyond.

[PSO.4]. Visual Communication and creative exploration: Develop a design language unique to an individual as a way to visually communicate the ideas and thought process. To be able to represent the ideas through different modes as a way of effective visual communication. Research, explore and draw conclusions for a given design or a creative problem.

[PSO.5]. Analyzing Design Environment: Identifying the trends and opportunities that are prevalent in the Fashion Industry and molding the acquired skillset in the most effective and sustainable manner.

Subject: Fabric Study and Garment Manufacturing

Code: FAD21037

6 Credits | Semester I

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This course is designed to acquaint the student with basic concepts of textiles and readymade garment industry. It aims to provide technical knowhow about the fabric manufacturing, provide a good understanding of the various qualities of fabric and an insight into the wide array of Indian textiles. It aims to create an understanding of the process of modern clothing manufacturing alongside the equipment used.

B. COURSE OUTCOMES: At the end of the course, students will be able to

- To understand the processes involving the conversion of fibers to fabric
- To identify and differentiate between different fibers and fabrics
- To attain in depth knowledge of textiles art
- Students will learn the different verticals of the garment industry and the technological aspect of garments and fashion

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Introduction: Why fabric study - Objective & Learning Outcome **Terminologies and Classification** - Vegetable and Cellulosic, Animal or Protein, Man-made fibers. Fiber classification based on length. Characteristic of different fibers, properties and end uses, **Identification** of fibers through non-technical ways - Identification by visual test and feel. **Introduction to yarn:** Yarn Making - hand spinning and machine spinning, Process of yarn making (cleaning, carding, combing, spinning, winding), **Types of yarns** - spun, filament, single, ply chord, novelty. Warp, weft, selvedge, **Understanding fabric structures: Woven Fabrics** - Process of weaving, motions of the loom (parts of the loom, setting up the loom - shedding, picking, beating, let off, take up), Types of weaves and their features - plain weave, basket weave, twill weave, satin weave, **Knitted Fabrics** - Types of knits (warp, weft), Types of knitted fabrics (jersey, ribbed, jacquard, interlock, pique), **Non-woven fabrics** and Felting, Fabric Terminology and end uses, **Indian Traditional Textile – Embroidery, Dyeing and Printing** - Overview of Indian Traditional Embroideries and dyeing techniques : Indian traditional embroideries from different states - Kashida of Kashmir, Chikankari of UP, Kanthas of Bengal, Kasuti of Karnataka, Phulkari of Punjab, Kutch Embroidery, Traditional Dyeing Techniques - Tie dyed and Ikat Textiles, Bandhani, Leheria, Patola, Resist printed and painted textiles of India - Ajrakh prints of Gujarat and Rajasthan, Kalamkari of Andhra Pradesh, Bagh Prints of Madhya Pradesh, **Introduction to Garment Manufacturing** – Techpak, Garment Costing, **Cutting**, Spreading, **Sewing** – terminologies, Seam types, Seam diagram, Seam - strength, elasticity, durability, sewability and comfort, Stitch types, Feed mechanisms, Machine needles, Sewing threads, Sewing Machinery, work aids, special machines - button / buttonhole, back tack, label sewing, **Garment Trims and accessories, Finishing** - Pressing and related garment finishing techniques

- purpose of pressing, categories, equipment - iron, steam press, press cladding, steam air finisher, steam tunnel, Textile and Garment finishing (Fabrics, Denim washes, Surface finishes) **Knitting Technology**

1- Low Correlation; 2- Moderate Correlation; 3- Substantial Correlation

Subject: Elements of Design

Code: FAD21033

6 Credits | Semester I

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This course is designed to provide fundamental knowledge and exposure to the concepts, elements and the principle of design in order to develop strong design aesthetics by inculcating the abilities of observing, absorbing, conceptualizing, visualizing, and creating.

B. COURSE OUTCOMES: By the end of the course, students will be able to:

- Sound understanding of lines, shapes, colors, patterns, motifs, texture.
- Enhanced understanding of visual balance
- Unique designing aptitude supported by innovative concepts
- Visual translation of designs represented through elaborate medium exploration skills

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Concept of Design and Introduction: Why elements of Design- Objective & Learning Outcome Three main aspects of design- function, aesthetics and cost effectiveness/ marketability; An overview of all the elements of design, **Sketching and Shading technique** - Basic understanding of sketching- qualities of lines and strokes. Hatching, cross hatching, and other shading techniques; working on scales (sizes). **Point/Line and Shapes** - Various types of lines; psychological symbolic and visual implications of lines; How to use lines in various ways to create different design compositions; of supply: Geometric and organic shapes; Ways to create new shapes using existing shapes. Discussions of shapes around us- natural and manmade; How to use lines in various ways to create different design compositions; Form study-Platonic solids, Color- Theory of consumer behavior: Primary, Secondary and Tertiary colors; Constructing a color wheel, Color Schemes- tetrad, triadic, analogous, complementary and split complementary colors; Concept of color interaction and color temperature of colors; Concept of value, saturation, shade and tint, value and saturation scale; Color symbolism and psychological effects of colors, Color standardization, Color boards, **Coloring Techniques and Medium Exploration-** Enhancing rendering skills- using color mediums Exploring various color medium techniques, **Motifs, Patterns and Textures-** Concept of Motifs and Patterns and the relationship between the two; Concepts of repeats, rhythm and alteration; Tessellation, Zen tangles; Concept of visual and tactile textures, textures in nature and manmade textures, **Nature drawing-** Sketching live plant life – developing sketching skill, understanding the contours of live plants, the play of shadows, understanding the concept of light and dark, folds and bends, **Emphasis, Figure and Ground & Balance-** Symmetry and Asymmetry- Introducing the concept of emphasis, Ways of creating emphasis- Emphasis by size, Emphasis by color, emphasis by shape, emphasis by details, and emphasis by framing. Exercises to understand the practical application of emphasis, Concept of figure and ground and the relationship

between the two, Concepts of visual balance, Introduction to symmetry and asymmetry as the methods to create balance **Composition Techniques-** Techniques such as golden rule, rule of thirds, **Design Drawing-** Create his/her own style

Subject: Apparel Construction I

Code: FAD21038

6 Credits | Semester I

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: Apparel Construction will develop skills in Pattern Making, Draping and Garment Constructions. In Pattern Making there will be an in depth understanding and technical knowledge of body and garment measurements and drafting patterns of various aspects of garments which form the basis for good fits and achieving styles as designed and desired. Through Garment Construction sound technical knowledge about garment construction with quality industry standard finishes will be provided to the young designers. Through Draping technical and design training of creating garments by molding, manipulating and shaping fabrics skillfully and accurately into three dimension forms will be imparted to the students.

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- Through pattern making students will learn:
 - Sizing and measurements of different body forms.
 - Drafting of paper patterns / templates of basic female tops and shirts.
- Through Garment Construction students will learn:
 - Basics of stitching
 - To convert paper patterns into actual stitched garments.
 - To achieve garment stylization through various sewing techniques and finishes
- Through Draping students will learn:
 - To create garments without reliance on flat patterns

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Introduction to Pattern Making –Why pattern Making, Terminologies, tools, body shape, parts of bodice, mannequin, measurements, Pattern making terminologies - bodice, darts, trueing, pattern, grain, selvedge, etc. **Principles of Draping** – an introduction, Basics of Draping –Taking Measurements, Techniques of Creating basic drapes, Pinning and Marking Analyzing draped Garments, **Garment Construction** – Why? Hand stitching techniques, Parts of Sewing Equipment – Machine, Sewing Machine Handling – familiarizing, threading and oiling, adjusting speed, introduction to sewing – practice sessions – straight lines, curved lines, spirals, **Seams** - what are seams, types of seams and uses, stitching the seams. **Basic Bodice and Darts** – Pattern making – drafting basic bodice, dart location and manipulation, basic sleeve drafting, Draping – Basic Bodice , dart manipulations, Garment Construction – basic bodice stitching with darts, sleeve attachment, dart manipulated bodice stitching, neckline finishes, **Basic Skirt** – Drafting and draping basic skirt, basic skirt stitching, Basic skirt stitching, waistband,

zipper, hemline finishes, **Integrated Term Project** – theme, inspiration and concept, brainstorming, mood board / color board, client profile, ideation and illustration, term project creation

Subject: Hindi
Code: HIN21001
 4 Credits | Semester I

Total Lectures Required –60

Total Tutorials Required - 12

A. INTRODUCTION:

- Students would be able to strengthen oral communications in Hindi
- Students would be able to develop the knowledge of writing in Hindi.
- Student would be able to improve vocabulary in Hindi.
- Students would be to enrich the knowledge of Hindi grammar to speak/write correctly.

B. COURSE OUTCOME:

- It will enhance student's communication skills.
- It will help students to write in Hindi correctly.
- It will help students to learn different words in Hindi for effective writing.
- Knowledge of Hindi grammar will help students to write/speak correctly.
- Students will be able to participate in Hindi debates/extempore related to current topics

C. ASSESSMENT PLAN:

PROGRAM OUTCOMES AND PROGRAM SPECIFIC OUTCOMES

BA (Hons) Fashion Design-Semester-II

PROGRAM OUTCOMES

[PO.1]. Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

[PO.2]. Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

[PO.3]. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

[PO.4]. Effective Citizenship: Demonstrate empathetic social concern and equity centered national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

[PO.5]. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

[PO.6]. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

[PO.7]. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes.

PROGRAM SPECIFIC OUTCOMES

[PSO.1]. Understanding Art, Fashion and Design Concepts and theories: Understanding in detail, the contents of various areas of Fashion, Art and Design and how the concepts have changed over a period of time.

[PSO.2]. Design Thinking and Sensibility: Take design decisions across various projects. Being able to think out of the box, follow the design process to create aesthetically soothing designs. Display design skills, knowledge and the understanding in the creative sector. Understanding of Art, Design and Creativity in regional and global context. Be sensitized towards aesthetics and fashion.

[PSO.3]. Application of Design Concepts: Implementing creative thinking and design concepts in the design environment and beyond.

[PSO.4]. Visual Communication and creative exploration: Develop a design language unique to an individual as a way to visually communicate the ideas and thought process. To be able to represent the ideas through different modes as a way of effective visual communication. Research, explore and draw conclusions for a given design or a creative problem.

[PSO.5]. Analyzing Design Environment: Identifying the trends and opportunities that are prevalent in the Fashion Industry and molding the acquired skillset in the most effective and sustainable manner.

Subject: Fashion Illustration ICode: **FAD22004**

6 Credits | Semester II

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This course is an insight into understanding of human features and female body and also enable the students to develop individual styles of fashion sketching to illustrate women's wear and also to illustrate various garment details.

B. COURSE OUTCOMES: At the end of the course, students will be able to

- Sound understanding of body proportion.
- Learning to illustrate women's garments in stylized ways.
- Developing illustration techniques to represent the creative ideas of fashion

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Introduction: Why Fashion Illustration? An overview of all the aspects of fashion illustration. **Human stick figure drawing** - Basic understanding of human anatomy- Front view, side view and back view of human figure. **Ball joint figure drawing** – To understand more of the human figure. **Fleshed up human figure-** different parts of limbs, various body angles. **Human features drawing** –minimizing strokes or details, highlighting some particular detail Unchanged proportion: elongating within proportion and making it thinner, **Illustrations and coloration using different techniques-** Using pencil/ charcoal, wax crayon, watercolor and ink and other mixed media techniques. **Fabric illustration-** Weave or texture and transparency ,Dyeing effect, Print and Embroidery illustration, pleats, gathers, lacing and drawstrings, button, zippers, tassels, stitch draping, folds, shapes and fits of female garments.

Subject: Surface Ornamentation

Code: FAD24019

6 Credits | Semester II

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This subject introduces and equips the students to various value addition techniques through which the surface of the fabric and garments can be enhanced and embellished.

B. COURSE OUTCOMES: By the end of the course, students will be able to:

- Various printing and dyeing techniques
- Various embroidery, patchwork and appliqué techniques
- To experiment and innovate various ways to create value addition by mixing techniques.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Painting and Printing - Why Surface Ornamentation- objectives and outcomes, Block printing, Screen Printing, Digital Printing, Hand Painting – Techniques, Process and Application, **Dyeing and Bleaching** - Solid Color dyeing, Tie and Dye, Batik - Techniques, Process and Application, Ombre Dyeing / Dip dyeing / Shade effect dyeing, **Fabric Manipulation** – Patchwork, Applique, Quilting, Cording - Techniques, Process and Application, **Embroidery** - Hand embroidery, Zig Machine Embroidery, Digital Embroidery –Different stitches and Techniques and Application, **Mixed media and unconventional explorations** - Exploring different techniques and processes and mixing techniques

Subject: Apparel Construction II

Code: FAD22039
6 Credits | Semester II

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This subject will help students develop skills in Pattern Making, Draping and Garment Constructions. In Pattern Making there will be an in depth understanding and technical knowledge of body and garment measurements and drafting patterns of various aspects of garments which form the basis for good fits and achieving styles as designed and desired. Through Garment Construction sound technical knowledge about garment construction with quality industry standard finishes will be provided to the young designers. Through Draping technical and design training of creating garments by molding, manipulating and shaping fabrics skillfully and accurately into three dimension forms will be imparted to the students. Apparel Construction II is the next level after Apparel Construction I

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- Through pattern making students will learn:
 - Drafting of paper patterns of basic components
 - Stylelines and
 - Implementing the concepts to other parts of the garments
- Through Garment Construction students will learn:
 - Critical operations
 - Finishing Techniques
 - To achieve garment stylization through various sewing techniques and finishes

Through Draping students will learn stylelines and to create garments without reliance on flat patterns.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: **Draping – Stylelines** - Bodice Style line Variations - Princess style line, armhole styleline, Empire styleline, Panel styleline, Halter neck bodice and Off shoulder bodice, **Draping – Skirt** – Variations - flared skirt, Peg skirt, Pleated/ Gathered skirt, Other variations, **Pattern Making – Sleeve - variations** - cap, petal, puff, lantern, bell, Introduction to **Menswear Patternmaking**, **Pattern making – Collars** - terminologies, basic shirt collar, peter pan collar, sailor collar, mandarin collar, collar with stand, roll collar, **Pattern making – Stylelines** – princess, panel, empire, **Garment Construction – Sleeves** - variations - cap, petal, puff, lantern, **Collars** - basic shirt collar, peter pan collar, sailor collar, mandarin collar, collar with stand, roll collar – attaching techniques and finishes, **Integrated Term Project** – theme, inspiration and concept, brainstorming, mood board / color board, client profile, ideation and illustration, term garment creation

4 Credits | Semester II

Total Lectures Required –60

Total Tutorials Required - 12

A. INTRODUCTION: The present paper will acquaint the student with basic concepts of environment and its components. It includes the anthropogenic activities and its harmful effects on environment. It also throws light on the harmful effects of solid waste and to learn new ways of disposing it off. Students are able to understand current hot topics in news related to environment such as red data book, hotspots. Students will have knowledge about the biodiversity and the threats to the species. They will understand the causes and impact of Global warming and acid rain.

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- Concept clarification about the components of environment and their inter relatedness
- Understanding of all the resources available and their origin and the ways to conserve them for sustainable future.
- To evaluate the environment and various species present and their importance and ways to conserve biodiversity.
- To construct and evaluate ways of managing solid waste and safe disposal techniques.
- To understand various measures undertaken by Government and laws related to protection of environment.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	20
	Assignment	5
	Attendance	5
End Term Exam (Summative)	End Term Examination	70
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: ECOSYSTEM AND HOW THEY WORK: Structure and function of an ecosystem, Types of ecosystem, Producers, Consumers and decomposers, Food chains, Food webs, ecological pyramids, energy flow in the ecosystem. Introduction, types, characteristic feature, structure and function of forest ecosystem, desert ecosystem, aquatic ecosystem, Lithosphere, Biosphere, and Hydrosphere, Major issues of Biodiversity, Biosphere reserves, National parks and sanctuaries. **CONCEPT OF SUSTAINABILITY AND INTERNATIONAL EFFORTS FOR ENVIRONMENTAL PROTECTION:** Concept of sustainable development, Emergence of environmental Issues, International Agreement on Environmental management, Problem of population growth, Population explosion, Family welfare Program. **RENEWABLE AND NON-RENEWABLE RESOURCES:** Defining resources, classification of resources, Soil and land degradation, Economic development and resources use, Natural

resources accounting, **POLLUTION AND PUBLIC POLICY (AIR, WATER, SOLID & WASTE):** Water Pollution; Water resources of India, Hydrological Cycle, Methods of Water conservation and management. Ground and surface water pollution, Recycling and management of water and waste water {domestic and industrial}. Water borne diseases and health related issues, Air pollution and air pollutants, sources of air pollution, its effect on human health and vegetation. Greenhouse effect, global warming and climate change., Ambient air quality standards, steps taken by government to control air pollution, Its impact on human health, Municipal solid waste management, segregation, disposal methods, composting, land fill sites etc, Hazardous waste management, biomedical waste management, **MANAGING, GROWING AND ENDING THE VENTURE:** Legal framework; Constitutional provisions, The Indian Penal Code, Role of Judiciary in Environmental protection, Wild life {protection} Act, 1972, Water [prevention and control of pollution] Act, 1974, Environment [protection] Act, 1986, Air [prevention and control of pollution] Act, 1981, Forest Conservation Act.

Total Tutorials Required - 18

A. INTRODUCTION: This subject will help students develop skills in Pattern Making, Draping and Garment Constructions. In Pattern Making there will be an in depth understanding and technical knowledge of body and garment measurements and drafting patterns of various aspects of garments which form the basis for good fits and achieving styles as designed and desired. Through Garment Construction sound technical knowledge about garment construction with quality industry standard finishes will be provided to the young designers. Through Draping technical and design training of creating garments by molding, manipulating and shaping fabrics skillfully and accurately into three dimension forms will be imparted to the students. Apparel Construction III is the next level after Apparel Construction II.

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- Through pattern making students will learn:
 - Drafting of paper patterns for skirts and dresses
 - Implementing the concepts to other parts of the garments
- Through Garment Construction students will learn:
 - Skirts and its finishes
 - Shirts and Dresses
 - To achieve garment stylization through various sewing techniques and finishes
- Through Draping students will learn to create dresses without reliance on flat patterns and the concept of cowl.

C. ASSESSMENT PLAN:

Total Lectures Required –60

Total Tutorials Required - 12

A. INTRODUCTION: This course aims to acquaint the students with fundamentals of communication and help them to transform their communication abilities. It will help them to understand and demonstrate writing and speaking processes through invention, organization, drafting, revision, editing, and presentation. Students will be introduced to effective Organizational Communication. They will gain an insight towards the correct practices of the strategies of Effective Business writing. They will further understand and appropriately apply modes of expression, i.e., descriptive, expositive, narrative, scientific, and self-expressive, in written, visual, and oral communication. This paper also aims to develop the ability to research and write a documented paper and/or to give an oral presentation.

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- To build the students' confidence and to enhance competitiveness by projecting a strong personality.
- Student shall be able to improve their listening & speaking abilities.
- They will be able to work on their ability to write error free while improvising vocabulary & grammar.
- Students will be able to deliver an effective oral business presentation.
- They will be able to demonstrate his verbal and non-verbal communication ability through presentations.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	20
	Assignment	5
	Attendance	5
End Term Exam (Summative)	End Term Examination	70
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Basics of communication- Meaning, elements, Barriers in comm. & overcoming barriers, Comm. process/cycle, Types of comm.- Formal & Informal., Advantages & disadvantages of formal comm, Advantages & disadvantages of informal comm, Developing Listening skills., How to become a good speaker., Report writing – examples, Letter writing – basics, Letter writing – layout, Letter writing – examples, Basic communication skills, Developing listening skills, Developing speaking skills, Developing right body language, Developing basics of reading, Developing vocabulary, Resume – do's & don'ts, Resume – layout, Resume – practice, Basics of Precise writing, Précis writing – format & practice, Interview – dos & don'ts, Formal Telephonic conversation, Basics of giving a PPT, Principles of oral communication, Creative writing – meaning & format, Creative writing – story, Creative writing – skit or poem, Group Discussion – meaning & cracking tips, GD- dos & don'ts, Helpful expression in communication, Common signs & symbols, Doubt solving session

Subject: Social Entrepreneurship

Code: MGT23107

4 Credits | Semester III

Total Lectures Required –60

Total Tutorials Required - 12

A. INTRODUCTION: This course aims to make the students learn and understand the essence of social entrepreneurship. This course will help them appreciate the role of social entrepreneurship in building a sustainable society. This course also aims in making the students equipped with knowledge, skills, attitude and approach to make them the social entrepreneurs for tomorrow. They will understand the sustainability of businesses in social sector thereby making a differential, positive and continuing impact on the society.

B. COURSE OUTCOMES: By the end of this course, students will be:

- Able to acquire the right attitudes towards social entrepreneurship.
- Able to improve their entrepreneurial skills.
- Sensitized towards the need and importance of social entrepreneurship and its sustainability
- Able to develop the holistic vision towards contribution to the society by building a sustainable business in the social sector.
- They will understand and mitigate the essence of social entrepreneurship as a moral obligation.

C. ASSESSMENT PLAN:

PROGRAM OUTCOMES AND PROGRAM SPECIFIC OUTCOMES

BA (Hons) Fashion Design-Semester-IV

PROGRAM OUTCOMES

[PO.1]. Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

[PO.2]. Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

[PO.3]. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

[PO.4]. Effective Citizenship: Demonstrate empathetic social concern and equity centered national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

[PO.5]. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

[PO.6]. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

[PO.7]. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes.

PROGRAM SPECIFIC OUTCOMES

[PSO.1]. Understanding Art, Fashion and Design Concepts and theories: Understanding in detail, the contents of various areas of Fashion, Art and Design and how the concepts have changed over a period of time.

[PSO.2]. Design Thinking and Sensibility: Take design decisions across various projects. Being able to think out of the box, follow the design process to create aesthetically soothing designs. Display design skills, knowledge and the understanding in the creative sector. Understanding of Art, Design and Creativity in regional and global context. Be sensitized towards aesthetics and fashion.

[PSO.3]. Application of Design Concepts: Implementing creative thinking and design concepts in the design environment and beyond.

[PSO.4]. Visual Communication and creative exploration: Develop a design language unique to an individual as a way to visually communicate the ideas and thought process. To be able to represent the ideas through different modes as a way of effective visual communication. Research, explore and draw conclusions for a given design or a creative problem.

[PSO.5]. Analyzing Design Environment: Identifying the trends and opportunities that are prevalent in the Fashion Industry and molding the acquired skillset in the most effective and sustainable manner.

Subject: Fashion Illustration IIICode: **FAD24016**

6 Credits | Semester IV

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This course is an insight into advanced fashion illustration styles, techniques and kids wear, an extension of Fashion Illustration II. It will also enable the students to develop individual styles of fashion sketching to illustrate kids wear and various other garment detailing.

B. COURSE OUTCOMES: At the end of the course, students will:

- Sound understanding of kids' body proportion.
- Learning to illustrate kids wear in stylized ways and other trending illustration techniques
- Digital Illustration Techniques

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Dynamic poses - Complex poses – different movements of limbs, various body angles and of Children` figure & different facial features of Children **Fashion Figure Stylization and developing Kid`s croqui** - Proportions- elongation, exaggeration of certain parts of the Child`s figure , simplifying –minimizing strokes or details , Emphasizing – highlighting some particular detail , Unchanged proportion: elongating within proportion and making it thinner **Human stick figure drawing** - Basic understanding of kid`s anatomy- Front view, side view and back view of kids figure **Kid`s wear** - Developing and illustrating kid`s wear- Garments with details, Weave or texture and transparency, prints, pleats, gathers, lacing and drawstrings, button, zippers, tassels, stitch draping, folds, shapes and fits of kids garments. **Photoshop Illustration Techniques**, Trending Illustration Techniques, Coloring techniques – advanced and trending,

Subject: Apparel Construction IV

Code: FAD24041

6 Credits | Semester IV

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This subject will help students develop skills in Pattern Making, Draping and Garment Constructions. In Pattern Making there will be an in depth understanding and technical knowledge of body and garment measurements and drafting patterns of various aspects of garments which form the basis for good fits and achieving styles as designed and desired. Through Garment Construction sound technical knowledge about garment construction with quality industry standard finishes will be provided to the young designers. Through Draping technical and design training of creating garments by molding, manipulating and shaping fabrics skillfully and accurately into three dimension forms will be imparted to the students. Apparel Construction IV is the next level after Apparel Construction III.

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- Through pattern making students will learn:
 - Drafting of paper patterns for advanced skirt designs and pants
 - Implementing the concepts to other parts of the garments
- Through Garment Construction students will learn:
 - Indian wear
 - To achieve garment stylization through various sewing techniques and finishes

Through Draping students will learn to create twists and trousers without reliance on flat patterns.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Draping – Twist – and twist variations, Twists for – bodice, skirts and dresses, Draping for basic trouser and trouser variations **Pattern Making – Pants** – terminologies, measurements of the bodice, basic pant foundations – culottes, trouser, slack, jean and related terminologies, **Skirts II** - skirt with yoke, tiered skirt, circle skirt – full circle and half circle, **Garment Construction – Indian wear** – Blouse, Kurti, Pyjama, Churidar (measurement, pattern and construction), basic styles and finishes, tiered skirt with elasticated waistband, skirt with yoke.

Total Tutorials Required - 12

A. INTRODUCTION: This course enables the students to understand how the gender factor can impact on economic and demographic development. Human rights are increasingly recognized as a unifying moral force that transcends national boundaries and empowers ordinary people everywhere to demand that their governments be accountable for the protection and promotion of their human rights. The present paper aims to create awareness and understanding regarding law and the administration of justice. It also aims at creating basic awareness about equality of opportunity and access to public services including education and health. Students will have understanding and sensitivity towards issues related to violence.

B. COURSE OUTCOMES: At the end of the course, students will be able to

- become familiar with the basics of gender economics and its statistics
- Understand the relationship between economic growth and gender equality
- Become aware of various policies related to gender at the national and global level
- Have knowledge of the various human rights
- Become aware of the redressal mechanism involved in human rights

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	20
	Assignment	5
	Attendance	5
End Term Exam (Summative)	End Term Examination	70
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Introduction to Gender Studies: Subject and methods of gender economics, Gender statistics, Gender inequality indicators **Economic growth and gender equality:** Globalization of the world economy and gender status, Feminization of poverty, Women's contribution to GDP. **Gender policy:** national, regional and global level. **Introduction to Human Rights:** Basic Concept of Human Rights, Essential Rights for Human Development-Rights relating to education, food, health, equality, information and Dignity of the individual. **Redressal Mechanism:** Legal and Statutory Remediation and Support-Need, Remedies and Support

PROGRAM OUTCOMES AND PROGRAM SPECIFIC OUTCOMES

BA (Hons) Fashion Design-Semester-V

PROGRAM OUTCOMES

[PO.1]. Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

[PO.2]. Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

[PO.3]. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

[PO.4]. Effective Citizenship: Demonstrate empathetic social concern and equity centered national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

[PO.5]. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

[PO.6]. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

[PO.7]. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes.

PROGRAM SPECIFIC OUTCOMES

[PSO.1]. Understanding Art, Fashion and Design Concepts and theories: Understanding in detail, the contents of various areas of Fashion, Art and Design and how the concepts have changed over a period of time.

[PSO.2]. Design Thinking and Sensibility: Take design decisions across various projects. Being able to think out of the box, follow the design process to create aesthetically soothing designs. Display design skills, knowledge and the understanding in the creative sector. Understanding of Art, Design and Creativity in regional and global context. Be sensitized towards aesthetics and fashion.

[PSO.3]. Application of Design Concepts: Implementing creative thinking and design concepts in the design environment and beyond.

[PSO.4]. Visual Communication and creative exploration: Develop a design language unique to an individual as a way to visually communicate the ideas and thought process. To be able to represent the ideas through different modes as a way of effective visual communication. Research, explore and draw conclusions for a given design or a creative problem.

[PSO.5]. Analyzing Design Environment: Identifying the trends and opportunities that are prevalent in the Fashion Industry and molding the acquired skillset in the most effective and sustainable manner.

Subject: Apparel Construction VCode: **FAD25042**

6 Credits | Semester V

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: This subject will help students develop skills in Pattern Making, Draping and Garment Constructions. In Pattern Making there will be an in depth understanding and technical knowledge of body and garment measurements and drafting patterns of various aspects of garments which form the basis for good fits and achieving styles as designed and desired. Through Garment Construction sound technical knowledge about garment construction with quality industry standard finishes will be provided to the young designers. Through Draping technical and design training of creating garments by molding, manipulating and shaping fabrics skillfully and accurately into three dimension forms will be imparted to the students. Apparel Construction V is the next level after Apparel Construction IV.

B. COURSE OUTCOMES: By the end of this course, students will be able to:

- Through pattern making students will learn:
 - Drafting of paper patterns for outerwear and pant variations
 - Implementing the concepts to other parts of the garments
- Through Garment Construction students will learn:
 - Jacket and t shirt construction
 - To achieve garment stylization through various sewing techniques and finishes
- Through Draping students will learn knits and creative, advanced draping without reliance on flat patterns.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: **Draping – Knits** – Torso, Swim suits and other variations, Creative and advanced Draping techniques, **Pattern Making – Outerwear** – terminologies, Jackets and coats – basic draft from torso, 2 pc sleeve, collar - notch and shawl, Pant Derivatives - according to lengths - short shorts, Jamaica, Bermuda, pedal pusher, t-rex, Capri. High waist, Baggy pants, **Garment Construction – Jackets** – jacket with 2 pc sleeve, jacket stitching with lining/interlining, etc. Pants construction with different finishes – waist, opening, pockets, zippers, buttons etc. T-shirt construction.

Subject: Craft AppreciationCode: **FAD25043**

6 Credits | Semester V

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: Craft appreciation supports personal, social, moral, spiritual, cultural and creative development, and enables participants to engage with and explore visual, tactile and other sensory experiences. The country and its vast territories throughout history has been a large resource of textile and material crafts. An introduction to different types of crafts will open the horizon of the design aspirants.

B. COURSE OUTCOMES:

- It will help to recognize and communicate ideas and meanings.
- These opportunities enable them to understand traditional and contemporary art, so that they develop confidence, competence, imagination and creativity.
- Developing sensitivity towards traditional crafts.
- Creating an ocean of opportunities to explore and understand local crafts

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50

Subject: Internship

Code: FAD25028

6 Credits | Semester V

Total Lectures Required –90

Total Tutorials Required - 18

A. INTRODUCTION: Internship aims at providing practical knowledge to students about the workings of the garment and fashion industry.

B. COURSE OUTCOMES: Students will learn:

- To be able to witness the actual design process and operations of garment sampling and production or garment retail business based on the sector they choose for their internship.
- To be able to create a collection for the company / brand/ designer they intern under using their design expertise and learning, understanding their looking and catering to their consumers` needs as well as taking into account the commercial feasibility and practicality.
- To compile all their learning in the form of visual presentation as well as a professional internship report.

C. ASSESSMENT PLAN:

Criteria	Description	Maximum Marks
Internal Assessment (Summative)	Internal Examination	15
	Assignment	30
	Attendance	5
End Term Exam (Summative)	End Term Examination	50
	Total	100
Attendance (Formative)	A minimum of 75% Attendance is required to be maintained by a student to be qualified for taking up the End Semester examination. The allowance of 25% includes all types of leaves including medical leaves.	

D. SYLLABUS: Internship Brief – A month long internship duration comprises of thorough understanding of the design house / organizational setup. A designer must become a part of the day to day activity of the company. The student must take up a **design project** in the organization and follow the **design process** to accomplish the project. A learning diary which comprises of the day to day activities should be maintained. Finally the student should strive to get as much information of the organization as possible to be able to compile a well formatted document as a part of evaluation.
