SESSION ON ANTI-RAGGING AWARENESS

Prof. Ashwini Kumar, (Asst. Dean of School of Engineering & IT) and Member Anti Ragging Cell, AJU, in his welcome note briefed about the **Anti-Ragging Cell** of the University. Session took place on 12th October where the details of the cell were given and discussion about the importance of it took place. The several provisions in this regard were well illustrated to the students. The cell takes action to prevent any physical or mental torture or any kind of absurd activity in the campus. Ragging is a systematic human rights abuse practiced by the seniors on the fresher so as to exert their dominance over the juniors. Let us put a stop to ragging and make a difference by joining hands. Department of Engineering believes in Ragging free atmosphere.

SESSION ON HUMAN VALUES

Department Of Engineering in their Induction and orientation program AARAMBH conducted a Session on **Human Values** dated 18th October by **Prof. Perna Rai** (Assistant Professor), Department of Engineering for students to familiarize with how to be a good human being, and a good citizen of the nation. The basic values of being human are the inherent values of human ethics, that is; truth, honesty, loyalty, love, and peace is the key which brings out the fundamental goodness of humans. Being human it is important to understand some core values, it is essential to understand what is right or wrong in terms of every aspect. The behavior of one is observed by their way of treating others, handling situations, understanding one's ability. Being a motivator, influencing others to deviate positively, the attitude towards life and living beings. Learning from one another the skills of peace-making, observing the good in each, and trying to bring the best from within one. Each one should improvise by being true to themselves, and being loyal to their goals, life, education, family, and nation. We should respect others' opinions, and not judge anyone by their caste, religion, gender, political-economic, social or physical personality.

Report on AARAMBH 2022 an Student Induction and Orientation Program For B. TECH 2022-2026 by Department of Engineering, School of Engineering & IT

Held during 12.10.2022-20.10.2022

Dates of Event	12.10.2022-20.10.2022
Name of the Event	AARAMBH 2022 An Orientation and Student Induction Program for B.Tech 2022-2026
Type of the Event	Soft Skill Development Program
Convenor	Prof. Ashwini Kumar
Conducted by	Dr. Binod Kumar Choudhary
No. Of Participants	191

Objectives: To assist engineering students in adjusting to and feeling at ease in the new academic atmosphere. To provide them with an ease of transition to main stream engineering courses through the introduction of the institution's ethos and culture. To assist participants in developing progressive and emotional ties with peers and faculty members in order to self-explore and comprehend the broader. To instill the ideals of health and hygiene, as well as to help students understand the power of inner strength. To modify and reform foundational principles in order to address gaps and sensitize them to investigating their academic interests and aims for academic achievement. To increase self-awareness, sensitivity, and understanding of oneself, others, society, and nature. To foster holistic development by exposing students to adverse range of curricular, co-curricular, and extra curricular activities. Students Induction Program could cover a number of different aspects like Socializing, meeting other new students, senior students, students union, Lectures by Eminent People Associating, visits to University / college, visits to Dept./Branch/Program of study & important places on campus, local area, city and so on; Governing: rules and regulations, student support etc; Experiencing: Subject lectures, study skills, small-group activities, physical activity, creative and performing arts, literary activities, universal human values, etc.

Details: The objective of Student Induction Program is to help new students to adjust and feel comfortable with the new environment and to know about the culture of the institution.

The Six days, which lasted from 12th October - 2022 to 20th October - 2022, marked the implementation of the induction program. More than 175 entrants from the Computer, Electronics and Electrical, and Mechanical divisions participated enthusiastically and benefited from the program. To smooth their transition to the core engineering program, they were given a basic overview of many aspects of engineering as well as job options in the area, as well as the college's systems and

processes. The induction and orientation program was jointly organized by Department of Engineering, School of Engineering & IT and Institute Industry Interaction Cell (IIIC) and MoU partners of ARKA JAIN University with eminent resources from Industry and Academia. The weeklong event energized the students with powerful speeches by dynamic resources. The function began with the lighting of the lamp by the dignitaries followed by Saraswati and Ganesh vandana performed by the students. This momentous inaugural address was initiated by Honorable Vice Chancellor Prof. Dr. S.S.RAZI, who expressed his valuable thoughts on the importance of health and education for the progress of any nation. He further emphasized on the importance of ethics in one's life to lead a life full of contentment. University is not only a place to give education but it also imparts discipline too, he said. The address by Prof. Dr. S.S.Razi, was concluded by a remarkable statement that, "You earn your degree, not buy it." Assistant Dean, Dr. Ashwini Kumar highlighted the importance of induction program in the beginning of this program. He expressed in his speech that discipline and punctuality go side by side. Giving examples, he quoted the importance of practical classes and gave the assurance that faculty is always there to solve their problems related to academics. Director (Campus) Dr. Angad Tiwary enlightened the freshers with the correlation of success and failure. The inaugural session was graced by the presence of the Chief Guest Prof. (Dr.) Dilip Kumar Singh, Director B.I.T Sindri; Special Guest Prof. (Dr.) Manikant Paswan, Special Guest Prof. (Dr.) Satish Kumar, NIT Jamshedpur. Incorporation of meditation and breathing can help improve a person's mental well-being. "Regular yoga practice creates mental clarity and calmness; increases body awareness; relieves chronic stress patterns; relaxes the mind; centers attention; and sharpens concentration. Ms. Priyanka Singh who is a very famous yoga teacher in Jamshedpur was our guest for this induction program.

Dr. Keerti Rai explained about solid-waste management, the collecting, treating, and disposing of solid material that is discarded because it has served its purpose or is no longer useful. The tasks of solid-waste management present complex technical challenges. They also pose a wide variety of administrative, economic, and social problems that must be managed and solved. Mr. Mukul Pandey explained about time management which is based on planning, organizing, and dividing your time for specific activities. If we can manage our time properly, it enables us to work faster, smarter, not harder, and we become stress-free. Time management aims to "Work smart, not to be a busy idiot", as they say. The ultimate goal is work-life balance, stress relief under pressure, and overall mental well-being. There are no one-size-fits-all time management steps; what works for us might not work for others. We may have noticed that we get too stressed when our schedule doesn't go as planned. Or we're getting too overwhelmed because we're overworking. For making the students aware of Universal human values, an expert talk session was conducted during the induction program. The speaker was Mrs. Prerna Rai from department of engineering who explained about the UHV to students. She mentioned at the present education system has become largely skill-based. The prime emphasis is on science and technology.

However, science and technology can only help to provide the means to achieve what is considered valuable.
