GANDHI SHASTRI JAYANTI CELEBRATION : HAND HYGIENE AWARENESS PROGRAM

Date of Event	3rd October,2023
Name and Type of Event	Gandhi Shastri Jayanti Celebration through Outreach Activity for providing awareness regarding hands hygiene.
Conducted by	Biotechnology Dept., Dr.Jyoti Khurana, Dr.Santosh K.Singh, Dr.Pratima
No. of Participant	16

Objective: The primary objective of the event was to advance the global goal of maintaining awareness about the critical importance of hand hygiene in healthcare. The focus was on accelerating action to prevent infections and antimicrobial resistance in healthcare settings, fostering a culture of safety and quality, and prioritizing hand hygiene improvement.

Event Overview: In pursuit of the mission to instill awareness about hand hygiene, a team comprising 16 students and a faculty coordinator visited Shri Ram School. The target audience for this initiative was the primary class students. The event incorporated various engaging activities to impart knowledge about the significance of hand hygiene in a way that was both educational and enjoyable.

Activities Conducted:

Skit Session: A skit was organized to effectively communicate the importance of hand hygiene. Through a dramatic presentation, students showcased scenarios highlighting the consequences of neglecting hand hygiene and the positive impact of adopting proper handwashing practices.

Song on Hand Hygiene Steps: A specially crafted song focused on the steps recommended by the World Health Organization (WHO) for effective hand washing. The musical element added a creative touch to the educational aspect, making it more memorable for the Children.

Poem, Role Play, and Dance: The event featured a combination of activities including a hand hygiene-themed poem, a role-playing session depicting proper handwashing techniques, and a dance activity. These diverse activities aimed to cater to different learning styles and ensure a comprehensive understanding of hand hygiene.

Interactive WHO Steps Demonstration: The WHO-recommended steps for handwashing were taught interactively, emphasizing a fun and engaging approach. The goal was to ensure that children not only learned about hand hygiene but also internalized the steps in a way that would become a habit.

Outcome:

Awareness about the Importance of Hand Hygiene: The event successfully raised awareness among the primary school students about the critical importance of maintaining proper hand hygiene for overall health and well-being.

Awareness Regarding WHO Recommended Steps: Children were educated about the WHO-recommended steps for handwashing in a creative and interactive manner. The incorporation of song, skit, and dance ensured that the information was not only delivered but retained effectively.

Progressing Global Health and Wellbeing Mission: The program contributed to the global mission of achieving better health and well-being for all. By instilling good hand hygiene practices at an early age, the event aimed to create a foundation for a healthier future generation, aligning with the broader global health objectives.

Conclusion:

The Hand Hygiene Awareness Event at Shri Ram School was a resounding success, effectively combining education and entertainment to impart crucial knowledge to the primary school students. The positive support from the school organization and the enthusiastic participation of almost 80 students underscored the success of the program. Moving forward, such initiatives can play a pivotal role in fostering a culture of health and safety, contributing to the broader global health goals.
