Treasure Hunt

Date of Event	19.09.2022
Name of the Event	Treasure Hunt
Type of the Event	Life Skill Development Program
Conducted by	Department of CS & IT
No. Of Participant	300

OBJECTIVE: This game will bring a sense of achievement and this boosts their self-confidence.

DETAILS: Treasure Hunt competition was conducted on 19th September 2022. The event was coordinated by Dr. Arun Kumar Marandi, Dr. Arvind Kumar Pandey, HOD, Department of Computer Science & IT.

Transition from school to university/college life is one of the most challenging events in a students' life. When new students enter an institution, they come with diverse thoughts, backgrounds and preparations.

Purpose of Student Induction Programme is to help new students adjust and feel comfortable in the new environment, inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration.

Student Induction Programme engages with the new students as soon as they come into the institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed.

Now, the event "Treasure-Hunt" is a game in which each person or team attempts to be first in finding something that has been hidden, using written directions or clues. Our treasure hunts are information-based scavenger hunts, or puzzle hunts, in which teams use their collective brainpower to solve clues. Each team is presented with a group of puzzles, or clues, which teams must solve in order to find a piece of information. Each clue leads to a location within walking distance, where players must find and use a vital piece of information to answer a question.

TAKEAWAY (OUTCOMES): After attending this webinar students will develop new skills and strengthen and reinforce other skills such as leadership, communication, and problem solving
