OBJECTIVE:

The National Eye Donation Fortnight is an initiative taken by the Government of India’s Ministry of Health & Family Welfare and National Program for Control of Blindness and Vision Impairment. The fortnight is observed from 25th August to 8th September every year, this year it was the 38th fortnight. To commemorate the same, the department of Optometry organized Eye donation awareness campaign and free eye check up for the staff of ARKA JAIN University in collaboration with ASG Eye Hospital and NSS team of the University.

ABOUT THE EVENT:

Dr Neha Gandhi Madan, consultant cornea, cataract & refractive surgery consultant from ASG eye hospital, Sakchi; Jamshedpur delivered a talk on different corneal conditions where corneal transplant is indicated. She also addressed some of the myths and stigma that are usually encountered regarding eye donation. Following the session, free eye checkup service was provided by ASG to the University staff. Students from Optometry department also presented a melody and poetry recitation.

At the end of the session, pledge forms were distributed among the attendees, and were asked to fill in voluntarily.

TAKEAWAY (OUTCOME):

The ratio of recipient eyes and donor cornea is largely unbalanced. It is alarming to note that for one donor cornea, there are 70 recipients, next in line. This event was to assure the audience that, they know what happens in eye donation, overcome myths and spread the word so that, there are more contributions from the society.
