Computer Society of India

About CSI

The seed for the Computer Society of India (CSI) was first sown in the year 1965 with a handful of IT enthusiasts who were a computer user group and felt the need to organize their activities. They also wanted to share their knowledge and exchange ideas on what they felt was a fast emerging sector. Today the CSI takes pride in being the largest and most professionally managed association of and for IT professionals in India. The purposes of the Society are scientific and educational directed towards the advancement of the theory and practice of computer science and IT. The organization has grown to an enviable size of 100,000 strong members consisting of professionals with varied backgrounds including Software developers, Scientists, Academicians, Project Managers, CIOs, CTOs & IT vendors to just name a few. It has spread its branches all over the country. Currently having more than 500 student branches and rooted firmly at 73 different locations, CSI has plans of opening many more chapters & activity centers in smaller towns and cities of the country. The idea is to spread the knowledge and provide opportunities to as many interested as possible.
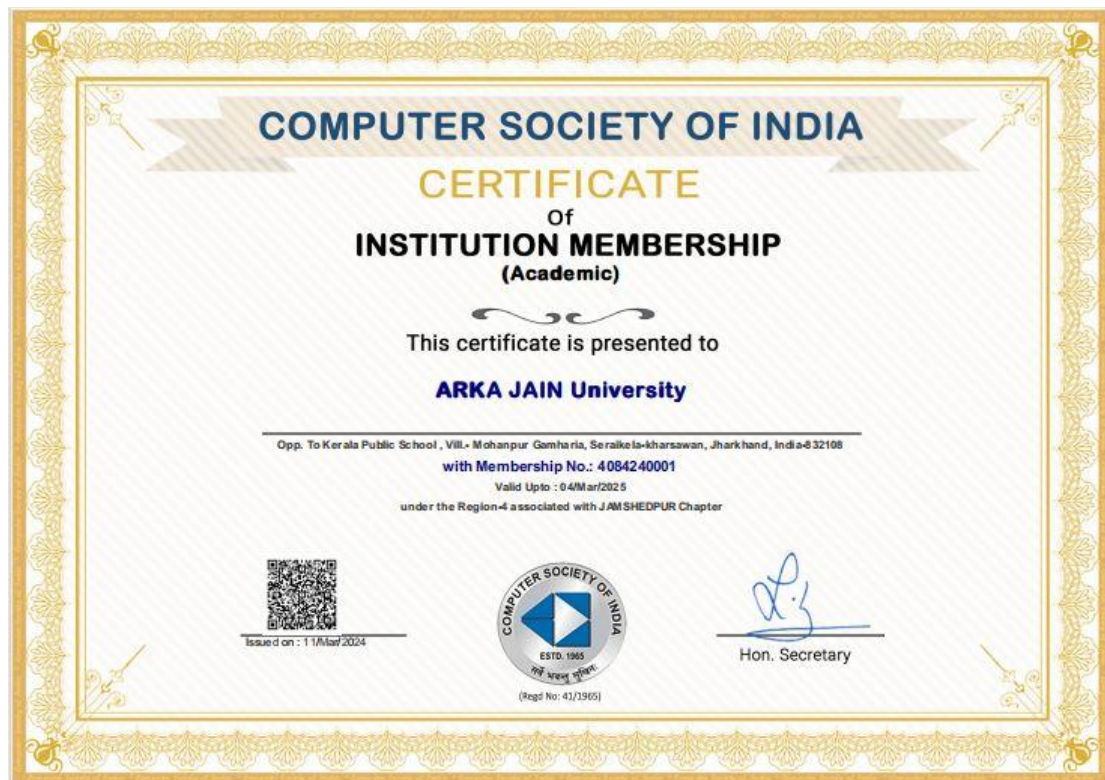

Why Join CSI

• To be a part of the distinguished fraternity of famous IT industry leaders, brilliant scientists and dedicated academicians through Networking.

• Professional Development at Individual level.

• Training and Certification in futuristic areas.

• International Competitions in association with International bodies like IFIP and SEARCC.

• Career Development

Global Affiliations and CSI

• Representing the Indian community in the International Federation of Information Processing (IFIP) since 1974.

• Representation in all the technical Committees and some of the working groups of IFIP. CSI has also organized IFIP sponsored events and conferences in India.

• It has reciprocal membership agreement with the British Computer Society and the Australian Computer Society and the IEEE Computer Society.
