Facilities for differently abled.(Barrier free environment)

ARKA JAIN University is deeply committed to creating an inclusive and accessible environment for all students, including those with different abilities. To ensure that every individual can navigate and utilize the campus facilities with ease, we have implemented a range of thoughtful accommodations.

Our campus features specially designed washrooms that cater to the needs of differently-abled individuals. These washrooms are equipped with handrails, non-slip flooring, and spacious layouts to provide a safe and comfortable experience. Understanding the importance of mobility and independence, we have installed lift facilities in all multi-story buildings. These lifts are not only easily accessible but are also designed to accommodate wheelchairs, ensuring that every student can move freely between floors without any barriers.

In addition, the university has developed wheelchair-friendly pathways that connect all major areas of the campus. These pathways are designed to be smooth and wide, allowing for easy navigation. Ramps are strategically placed wherever there are changes in elevation, ensuring that wheelchair users can move around the campus without hindrance.

At ARKA JAIN University, we believe that education should be accessible to everyone. By providing these essential facilities, we strive to create an environment where all students, regardless of physical ability, can thrive and fully participate in the academic community.
