INDUSTRIAL VISIT TO BEBBCO JAMSHEDPUR

Date of Event	26.04.2024
Name of Event	Industrial Visit to BEBBCO Jamshedpur
Type of the event	Industrial Visit
Conducted by	Prof.Mukesh Kumar Sharma,Prof.Debasish Mukherjee,Mr.Abijit
No. of Participants	15

OBJECTIVE: The objective of the industrial visit to BEBBCO Jamshedpur is to provide students with practical insights into manufacturing processes, technology applications, and real-world engineering practices in an industrial setting.

DETAILS:

On 26th April 2024, an industrial visit was organized for the Polytechnic 4th Semester students of Electrical & Electronics Engineering, School of Engineering and IT, ARKA JAIN University, to BEBBCO Jamshedpur. The visit aimed to provide students with practical exposure to industrial processes and technology applications. The visit began with an interactive session with the HR team of BEBBCO, where students were introduced to the rich history and evolution of BEBBCO Limited, learning about its significant contributions to the engineering industry. The HR team also provided insights into the various verticals in which the company operates, particularly highlighting its involvement in the automobile body-building sector for companies like TATA Motors and Mahindra. Following this, the students were invited to the company canteen for refreshments, offering them a chance to experience the workplace environment and engage in informal discussions with BEBBCO employees. The visit continued with a guided tour of the BEBBCO plant, where students observed the operations firsthand, including the work on the shop floor and the body-building process for automobiles. This exposure to modern manufacturing techniques and the integration of automation in industrial processes was particularly enlightening. Overall, the industrial visit to the BEBBCO plant was highly beneficial for the engineering students, providing them with valuable practical exposure to real-world engineering practices. The combination of interactive sessions with the HR team and the plant visit significantly enriched their understanding of the industry, effectively bridging the gap

between academic learning and industry requirements, and preparing them for future careers in engineering.

TAKEAWAY (OUTCOMES):

During the visit to the BEBBCO plant, Students learned about its rich history and gained valuable insights into the various verticals it operates. Engaging in interactive sessions with the HR team deepened the understanding of the company's operations and culture. Students had the opportunity to witness firsthand the plant's operations, particularly the activities on the shop floor, and observed the implementation of automation through robots, showcasing modern manufacturing techniques.
