Job Summary

Job Summary We are seeking a skilled and detail-oriented Software Tester to join our dynamic team. The ideal candidate will have a strong background in creating comprehensive test plans, executing various testing types, and collaborating effectively with cross-functional teams. With a focus on desktop and mobile applications, the Software Tester will play a crucial role in ensuring the quality and reliability of our software products.

Key Responsibilities:

- Develop and execute comprehensive test plans based on project requirements and specifications.
- Design and execute test cases, covering functional, non-functional, usability, and exploratory testing.
- Identify and document defects, collaborating closely with development teams to analyze root causes.
- Communicate testing issues and results clearly with stakeholders, contributing to effective decision-making.
- Actively participate in team collaboration, sharing knowledge, and contributing to continuous improvement.
- Conduct API testing to ensure the functionality and reliability of application interfaces.
- Perform cross-browser and cross-platform testing to ensure compatibility across various environments such as Android, iOS, Windows MacOS and Linux.
- Utilize tools such as Jira, TestRail, Fiddler, MS Teams, and Google Workspace for effective test management.
- Familiarity with simulators, emulators, and cloud-based testing platforms. Preferred experience in mobile and desktop application testing. –
- Have 0-1 years of proven experience as a Software Tester, with a focus on desktop and mobile applications.

Desired Skills and Knowledge: - Understanding of the architecture and components of mobile applications. - Awareness of industry-standard testing practices and methodologies. - Knowledge of performance testing tools. - Familiarity with accessibility guidelines and best practices. - Security awareness and experience with security testing techniques (Preferred). - Knowledge of security principles and encryption techniques (Good to have).

What We Offer: An influential role in a company that's shaping the future of cybersecurity and password management. A competitive salary and benefits package, in recognition of the expertise you bring. Opportunities for substantial personal and professional development in a company that values innovation and progress. A dynamic, open, and collaborative culture that encourages the exchange of ideas and rewards creativity.
