ROLEPLAY ON ANTIBIOTICS

Date of Event	06/03/2024
Name of the Event	Roleplay on Antibiotics
Type of the Event	Participative Learning for Technical Skill Development
Conducted by	School of Pharmacy
No. Of Participant	45

OBJECTIVE: The objective of conducting the role play event was to create a dynamic, engaging, participative learning session that would lead to or enhance the technical skills of the students. Additionally, it aimed to enrich students educational journey, strengthen their skills, and contribute to their overall academic and personal development.

DETAILS: In the context of the diverse students at Indian schools, where learners range from advanced to slower learners, it is imperative for educators to serve as impartial mentors, fostering the academic growth of all students. Employing varied teaching methodologies is key to achieving this goal, ensuring engagement across different learning levels. Looking into this matter A Role-play on Antibiotics was conducted by the students of ARKA JAIN University of School of Pharmacy on March 6th, 2024, on the eve of National Pharmacy Education Day 2024. Antibiotics are indispensable tools in modern healthcare, playing a critical role in treating bacterial infections, preventing complications, and safeguarding public health. However, their judicious use and effective management are essential to mitigate the emergence of antibiotic resistance, which poses a significant global health challenge. During the session themed "A Role Play on Antibiotics," students showcased their knowledge and skills, elucidating various antibiotics available in the market. Each student delved into their assigned antibiotic, covering its mechanism of action, dosage, mode of administration, and potential side effects. The participants, including Satyam portraying Chlotetracycline, Sumant as Azithromycin, Pratik as Aztreoman, Deepak as Cephalexin, Aryan as Penicillin G, Sania as Clavulanic, Nishat as Chloramphenicol, and Himanshu as Streptomycin, demonstrated commendable depth and clarity in their presentations. The orator of the role play, Prabjott, a BPharm student, provided comprehensive insights, garnering praise from both faculty members and dignitaries . Under the guidance of Mr. Suraj Kumar, Assistant Professor, all 4th-semester BPharm students showcased exceptional enactment, captivating the audience with their proficiency and dedication. Dr. Jyotirmaya Sahoo, Dean of the School of Health and Allied Sciences, lauded the collaborative efforts of students and faculty, recognizing the event as a successful example of participative learning. This session not only enhanced understanding and confidence among slower learners but also fostered critical thinking and communication skills among advanced learners, embodying the inclusive and effective ethos of education.

OUTCOMES: The event served as a platform for students to deepen their understanding, enhance their skills, and receive recognition for their academic achievements, contributing to a rich and dynamic learning culture within the institution.
