ANSHUGHAT SURAKSHYA "A NUKKAD NATAK"

Date of Event	12.04.2024
Name of the Event	Anshughat Surakshya "A Nukkad Natak"
Type of the Event	Health Awareness Outreach Program
Conducted by	Bhesajam the Pharma club of School Of Pharmacy in association with NSS and NCC
No. Of Participant	32

OBJECTIVE: The objective is to leverage creative and engaging approaches to address pressing public health issues, promote community well-being, and foster a sense of collective responsibility towards building healthier and more sustainable societies.

DETAILS: Sunstroke, also known as heatstroke or hyperthermia, is a severe heat-related illness caused by prolonged exposure to high temperatures. It occurs when the body's heat regulating mechanisms fail to cope with excessive heat, leading to a dangerous rise in body temperature. By taking preventive measures and being aware of the risk factors, individuals can reduce the likelihood of experiencing sunstroke and other heat-related illnesses, particularly during hot weather conditions. Addressing this issue the students of School of Pharmacy under the flagship initiative of Unnat Bharat Abhiyan, of ARKA JAIN University organized a significant awareness event titled "Anshughat Suraksha," a Nukkad Natak aimed at educating the local community about sunstroke prevention and summer safety measures. The event was conducted by the Pharma Club "Bhesajam" in collaboration with the NSS and NCC of ARKA JAIN University. The focus point of the event was a lively and engaging Nukkad Natak performed by students of the B.Pharma. The play was conducted in nearby **village Musarikudar** adopted by the university, ensuring direct outreach to the local population. The theme of the play centered around the dangers of sunstroke and the importance of taking preventive measures in response to rising temperatures. During the performance, the B.Pharma students creatively conveyed essential messages to the audience: Emphasizing the significance of staying hydrated to combat the effects of heatstroke. Advising against unnecessary outdoor activities during peak sunlight hours. Promoting the consumption of foods that aid in preventing heat-related illnesses. The villagers responded positively to the Nukkad Natak, appreciating both the entertainment value and the educational content delivered by the students. The interactive nature enabled direct engagement with the community, fostering understanding and awareness regarding the risks associated with sunstroke. The script for the Nukkad Natak was skilfully crafted by Tanushree Giri, an 8th-semester B.Pharma student. The event was conceptualized and guided by Dr. Jyotirmaya Sahoo. The coordination was efficiently handled under the supervision of Ms. Purnima Mahato, Mr. Ashutosha Parida, and Mr. Pradeep Mandal.

OUTCOMES: The Nukkad Natak "Anshughat Suraksha" organized by the School of Pharmacy at ARKA JAIN University under the flagship of Unnat Bharat Abhiyan was a resounding success in spreading awareness about sunstroke prevention. Through this initiative, the students demonstrated their commitment to community engagement and public health education. The event not only entertained but also empowered the local community with actionable insights to combat heat-related challenges effectively.
