CIRCULAR

Ref. no.: AJU/CS&IT/044/2023-24

Date: 11.03.2024

This is hereby notified to all the students that Department of Computer Science & Information Technology, School of Engineering and IT, ARKA JAIN University, Jharkhand, will be organizing a three days' workshop on "Sensor Data Collection and Analysis Framework for IOT", from March 18th to March 20th, 2024 for the students of BCA and MCA.

**Three *days*' Workshop on "Sensor Data Collection and Analysis Framework for IOT"
18th- 20th March 2024**

Date of Event	18th- 20th March 2024
Name of the Event	Three <i>days</i>' Workshop on "Sensor Data Collection and Analysis Framework for IOT"
Type of the Event	Skill Development
Conducted by	Debanjan Ghosh, Dr. Arvind Kumar Pandey
No. of Participants	52

OBJECTIVE:

The objective of the workshop is to provide participants with a comprehensive understanding of sensor data collection and analysis frameworks for the Internet of Things (IoT). Through hands-on sessions and practical examples, attendees will learn to implement efficient data collection strategies and analyze sensor data effectively. The workshop aims to equip participants with the skills necessary to design and deploy sensor-based IoT systems in various applications.

ABOUT THE EVENT:

The Three-Day Workshop on "Sensor Data Collection and Analysis Framework for IoT" is scheduled from the 18th to the 20th of March 2024, at Block E, Arka Jain University, Jharkhand, from 8:00 am to 12:30 pm. The workshop, led by coordinator Debanjan Ghosh and convener Dr. Arvind Kumar Pandey, aims to enhance participants' skills in designing and deploying sensor-based IoT systems. With an expected attendance of 52 Students, the event promises a dynamic learning environment. Attendees will have the opportunity to gain practical knowledge and hands-on experience in this field, making it a valuable experience for all involved.

TAKEAWAY (OUTCOME):

The Three-Day Workshop on "Sensor Data Collection and Analysis Framework for IoT" at Arka Jain University aims to provide participants with practical skills in designing and implementing IoT systems. Attendees will learn about sensor data collection techniques and analysis frameworks through hands-on activities and real-world examples. By the end of the workshop, participants will be equipped to develop and deploy sensor-based IoT solutions in various domains. The workshop will empower attendees to leverage sensor data effectively, contributing to their professional growth in the field of IoT.
