# DR. CHENRAJ ROYCHAND

## Welcome to ARKA **JAIN** University!

On behalf of the entire ARKA JAIN University (AJU) community, I extend a warm welcome as you consider joining us on your academic journey. AJU proudly upholds a 14-year legacy of shaping young minds. Since its establishment by the JAIN Group of Institutions, Bengaluru in Jharkhand in 2011; the institution consistently delivered world-class education, culminating in the founding of ARKA JAIN University in 2017, the first state private university in the Kolhan region.

We are proud to be the first NAAC A - Grade accredited State Private University in Bihar, Jharkhand, and West Bengal in the first cycle. Our diverse and inclusive student community thrives on vibrant co-curricular and sports engagements, industry-focused workshops, and opportunities to connect with peers who share your passions.

As you are on the look-out for a credible institution, I encourage you to discover the multiple opportunities we offer at AJU. Visit our website, connect with the admissions team, or consider a campus tour to experience the AJU spirit first-hand.

We are certain that AJU would be the ideal platform for your academic and professional success. Join us in building a future shaped by innovation, excellence, and a shared commitment to growth!

Warmly,  
Dr. Chenraj Roychand

**ARKA JAIN**  
**University**  
Jharkhand

# The Genesis

ARKA JAIN University was established in 2017 by the Jharkhand State Legislature through “The ARKA JAIN University Act”. It holds the distinction of being the first state private university in the Kolhan region, encompassing three districts.

The First NAAC 'A' Grade Accredited State Private University in Bihar, Jharkhand, and West Bengal, in the first cycle.

The University is rooted in the prestigious JAIN Group of Institutions, Bengaluru, which manages over 77 educational institutions. It is mentored by JAIN (Deemed-to-be-University), Bengaluru, a NAAC A++ and NIRF Top-100 HEI.

AJU holds affiliations and recognitions from statutory and regulatory bodies, including AICTE, BCI, PCI, OCI, INC, JNRC, AIU, and ASCO. An ISO-certified "Educational Organization Management System" University, AJU ranked 52nd among India's Best Private Universities in the India Today-MDRA Best Universities 2024 Rankings.

The School of Commerce & Management holds the 80th rank among India's Top Private B-Schools in the Outlook iCare Best B-Schools 2025 Rankings, while the BBA, B. Com (Hons.), and BCA programs rank 96th, 93rd, and 95th, respectively; in the Outlook iCare India's Top Colleges 2024 Rankings.

# Placement Procedure

The Training and Placement Department comprises of a collaborative team of committed placement officers led by the dynamic Dean, faculty and student placement coordinators dedicated to overseeing the entire process; from inviting companies to coordinating campus drives, conducting final interviews to coordinating with the students regarding the onboarding process. The placement-related exercise begins with bridge sessions, providing an initial boost to the students so as to prepare for various subjects pertinent to the forthcoming placements. Additionally, the placement cell facilitates training opportunities for students in various essential areas

## VISION

To Develop Human Capital by creating spirited learning environment by empowering the students with knowledge, skills and instil social responsibility towards holistic development

## MISSION

- To impart multidisciplinary and a holistic education in order to ensure the unity and integrity of all knowledge
- To create academic impact through a combination of age-old tradition with modern scientific knowledge
- To create a lifelong learning environment that nurtures intellectual inquisitiveness, holistic & critical thinking, ethics and human values, equity and inclusion, and life skills, and thus making students responsible citizens and nation builder
- To augment the employability aspect of students as per global requirements
- To provide ideal environment for research, innovation, consultancy and entrepreneurship for larger and wider socio-economic and humanistic progress
- To endow the faculty and staff members with necessary means so that they can deliver on the stated lines  
To create a global tribe of technocrats, managers, entrepreneurs, scientists, biologists, pharmacists, artists and other professionals
- To engage with industry, and society at large, in productive manner
- To promote respect for diversity and respect for the local context in all curriculum, pedagogy, and policy

## QUALITY POLICY

- To make sure that the academic programmes meet the accepted norms as per the stakeholder's requirements
- To ensure effective functioning of processes, systems and policies pertaining to quality standards at various levels
- To foster quality enhancement to realise academic excellence
- To empower students with knowledge, skills, attitudes by imparting quality education

## VALUES

- Ethics and integrity
- Environmental consciousness & sustainable development
- Promotion of Indian culture & heritage
- Active citizenry
- Intellectual and Moral Uprightness
- Service to society and contribution towards national development

# 60+ MOUs

ARKA JAIN University is committed to foster a dynamic and globally-connected learning environment. We have established a robust network of over 60 international and national MoUs and associations with prestigious corporations and academic institutions. These strategic collaborations unlock a world of exposure and opportunities for both faculty members and students. Our faculty members benefit from joint research initiatives, faculty exchange programs, consultancy opportunities, conferences and professional development workshops. Students gain valuable real-world experience through industry projects, internship & placement avenues and exchange programs. This synergy between academia and industry empowers our students to be future-ready and excel in a connected world.

& Many More

## HOSTEL FACILITY

The University provides well-furnished spacious accommodation and amenities, along with food, to students through its hostels situated in different parts of Jamshedpur. The hostels have air-conditioned (A/C) and non A/C rooms. Each room has bed, almirah, study table and chair. The University provides transportation facility from Hostels to Campus and back.

## CAFETERIA FACILITY

Enjoy a delicious variety of food options at the AJU cafeteria, the perfect spot to refuel and recharge. Whether you're grabbing a quick bite between classes or catching up with friends over lunch, our welcoming atmosphere makes the cafeteria a hub for both sustenance and socialization. Unwind and socialize with friends in a relaxed atmosphere, making memories that last a lifetime.

## TRANSPORT FACILITY

The University provides transportation facility for the students who opt for availing the same. A fleet of buses ply between the university and various locations of Jamshedpur to pick and drop the students and faculty members. The extensive coverage of various locations of the city ensures that students from across the city can avail this facility.

## GYM FACILITY

Get fit, stay healthy, and achieve your fitness goals at the state-of-the-art gym facility, an integral part of the campus life! The gym is equipped with all the latest equipment you need for a complete workout, from cardio machines to free weights. With a gym instructor on hand to provide guidance and support, you'll have everything you need to reach your fitness objectives.

As Per NEP 2020

- Designed in alignment with the Four Year Undergraduate Program (FYUGP) framework as outlined in the National Education Policy (NEP) 2020.
- Tailor your academic experience over 3+1 years while acquiring essential business skills and knowledge.

At the end of second year, students can choose from the following specializations:

Data Science

Multimedia

Internet of Things

- Students can exit after 3 years with a BCA Degree
- 4th Year is optional, leading to BCA (Honours with Research) Degree
- After 4 years, students may go for 1 year master's degree (Lateral Entry)

## Next-Gen Value Added Courses!

- |                           |                                     |

(Batch 2023-25)

## Beyond The Ordinary, A BCA Degree Opens Doors To Thriving Industries

### SYSTEM ENGINEER

A system engineer develops, tests and evaluates software

### PROGRAMMER

A programmer works on computer languages and apps

### WEB DEVELOPER

Specializes in web designing and web development

### SECURITY ANALYSIS

Help prevent attacks on databases, networks, etc.

### SOFTWARE DEVELOPER

Develops the underlying devices or that control networks

### INFORMATION SYSTEM MANAGER

IS Manager plans, installs, and maintains system

### DATABASE ADMINISTRATOR

Uses specialized softwares to store and organize data

### SYSTEM ADMINISTRATOR

Specializes in configuration, and reliable operation of CS

3+1 Years (AICTE Approved)

# BCA

**ARTIFICIAL INTELLIGENCE  
& DEEP LEARNING**

in Association with

**(Honours with Research)**

As Per NEP 2020

- Designed in alignment with the Four Year Undergraduate Program (FYUGP) framework as outlined in the National Education Policy (NEP) 2020.
- Tailor your academic experience over 3+1 years while acquiring essential business skills and knowledge.
- Students can exit after 3 years with a BCA- Artificial Intelligence & Deep Learning degree
- 4th Year is optional, leading to BCA- Artificial Intelligence & Deep Learning (Honours with Research) Degree
- After 4 years, students may go for 1 year master's degree (Lateral Entry)

## Program Differentiators

- Students would develop robust, enterprise-grade applications, leveraging the scalability and versatility of Java in AI-driven projects.
- Students would create the ability to deploy and scale AI applications efficiently on cloud platforms, enhancing accessibility and flexibility
- Students would delve into advanced neural network architectures, algorithms, and techniques, empowering to tackle complex problems with cutting-edge solutions.

Students would get equipped with a powerful toolkit for rapid prototyping, experimentation, and deployment of AI models, leveraging Python's extensive libraries and frameworks

- Students would gain expertise in securing networks, analyzing network traffic, and investigating security incidents.

## What You Can Expect

- IBM's expertise enhancing practical learning, enriching the curriculum with real-world applications
- Hands-on experience with IBM software, thus preparing for diverse roles in multinational organizations
- IBM-led competitive edge to confidently face market challenges
- A degree associated with IBM would add prestige and recognition to your resume

## Some Unique Courses Offered

Cloud  
Fundamentals

Data  
Visualization

Programming  
with Python

Predictive  
Analytics

Artificial Intelligence  
Analyst

Deep Learning  
(Industry Project)

At the end of the program,  
the student will get

- **BCA / BCA (Honours with Research) Degree in Artificial Intelligence & Deep Learning from the University**
- **World-wide valid Joint Certificate and Digital Badges from IBM mentioning the industry subjects covered**

3+1 Years (AICTE Approved)

# BCA

## CYBERSECURITY

in Association with

**(Honours with Research)**

As Per NEP 2020

- Designed in alignment with the Four Year Undergraduate Program (FYUGP) framework as outlined in the National Education Policy (NEP) 2020.
- Tailor your academic experience over 3+1 years while acquiring essential business skills and knowledge.
- Students can exit after 3 years with a BCA- Cybersecurity Degree
- 4th Year is optional, leading to BCA- Cybersecurity (Honours with Research) Degree
- After 4 years, students may go for 1 year master's degree (Lateral Entry)

## The Cyber Dojo Edge

### ■ Unique Tri-Lab Approach

Micro Labs  
Simulation Labs  
Red, Blue & Purple Drills

### ■ Labs Inspired from Real World

### ■ Cyber Defense & Attack Scenarios

Defend the digital world:  
Learn in-demand cybersecurity skills.  
Become

- |                             |                        |
|-----------------------------|------------------------|
| ■ Cybersecurity Expert      | ■ Blockchain Developer |
| ■ Cloud Solutions Architect | ■ Ethical Hacker       |

## Program Differentiators

- Students would learn to identify vulnerabilities and exploit them ethically to improve system security.
- Students would gain expertise in securing networks, analyzing network traffic, and investigating security incidents.

# What You Can Expect

- Comprehensive Training Programs
- Continuous Upgradation
- Next-Gen Simulation Labs
- Industry Exposure
- Project Support Opportunities
- Mentorship from Industry Experts

## Some Unique Courses Offered

Operating Systems  
Security

Networking from  
Security Perspective

Network  
Defence

End Point  
Security

Compliance &  
Data Protection

Post Exploitation and  
Advanced Techniques

At the end of the program,  
the student will get

- **BCA / BCA (Honours with Research) in Cybersecurity Degree from the University**
- **The Certified Cybersecurity Professional Course Certification from Cyber Dojo**

2-Year (AICTE Approved)

# MCA

## ARTIFICIAL INTELLIGENCE & DEEP LEARNING

(As per NEP 2020)

Eligible students having FYUGP degree can take admission directly in the second year of MCA Program (through Lateral Entry)

in  
Association with

A Master's degree in Computer Application (MCA) - Artificial Intelligence and Deep Learning opens up opportunities for rewarding careers

- |                      |                  |
|----------------------|------------------|
| ■ Software Architect | ■ AI Researcher  |
| ■ Data Scientist     | ■ Technical Lead |

## MCA in Artificial Intelligence and Deep Learning Essentials

- Offered in association with Tech Giant IBM

A structured approach to advanced computer education that integrates both theoretical and practical aspects. Seminars, conferences, workshops and guest lectures by domain experts from industry & academia

- Use of available resource of videos and lectures from MOOCs
- Personality Development Module integrated with the curriculum
- Strong link with ICT Industry
- Excellent Industry-Institute Interface
- Dedicated & well-qualified faculty members
- Effective training & placement assistance
- MoU with IT players for placement along with projects and corporate training

# Enhance Skills, Work Together, Create Solution

## WORKSHOPS

Workshop on Research Methodology

National Level Workshop on "Intellectual Property Rights"

National Workshop on "Career Counselling"

## CONFERENCES

Stay ahead of the curve: Gain insights into future developments.

Network with leaders: Connect with experts and potential collaborators.

## SEMINARS

Personality Development & Interview preparation

Seminar on Entrepreneurship Development Skills- in association with IIC (Institution's Innovation Council).

The IT Club is a dynamic and inclusive student-led club formed in a manner so as to foster a community of tech enthusiasts. The club organizes quiz competitions, guest lectures, hackathons, awareness sessions related to various aspects of information technology, enhancing technical skills, thus preparing students for successful careers in the IT industry

## Glocalized Learning

## Become Industry-ready with relevant Value Added Courses

Machine Learning with Semantic Analysis

IoT and its Applications

Deep Learning and its Application

and more...

Our MCA alumni are innovators, problem-solvers, and industry experts

# B. TECH

## ARTIFICIAL INTELLIGENCE & DATA SCIENCE

in Association with

(As per NEP 2020)

### Unique Courses

- Software Foundation & Programming (with C++)
- Programming With Python
- Cloud Fundamentals Programming With Java
- RDBMS
- Data Visualization
- Predictive Analytics
- Data Science
- Artificial Intelligence

### About the Programme

- The Bachelor of Technology (B. Tech) program in Artificial Intelligence (AI) and Data Science is designed to equip the student with the skills to navigate the intersection of these two contemporary technical fields.
- The student delves into the core concepts of both AI and data science, gaining comprehensive understanding of machine learning algorithms, data analysis techniques, and statistical methods.
- Student will explore areas like deep learning, natural language processing, computer vision, and data mining, thus developing the ability to extract valuable insights from vast datasets.
- Graduates with a B. Tech in AI and Data Science degree are in high demand across various verticals, including healthcare, finance, marketing, among others.
- This degree opens doors to exciting careers in data science, machine learning engineering, AI research, and business intelligence, making the student a valuable asset in the ever-growing world of data-driven decision making.

### Career Opportunities

- |                             |                      |
|-----------------------------|----------------------|
| ■ Software Developer        | ■ Predictive Analyst |
| ■ NLP Engineer              | ■ IT Consultant      |
| ■ Machine Learning Engineer | ■ Cloud Engineer     |
| ■ Data Scientist            | ■ System Analyst     |

## Salient Features Of Association With IBM

- The corporate interface programme - B. Tech in Artificial Intelligence and Data Science has been designed in collaboration with the Tech Giant IBM.
- Every semester, one course will be taught by IBM Subject Matter Experts
- Each course is credit based and evaluated by Industry
- Experts as per UGC norms
- Work on Enterprise Software through IBM sponsored University Lab & Cloud Access
- Real Time Project Development
- Each semester, students will earn a badge / certificate
- Get access to the course material through IBM.
- Access Industry-aligned software for free
- Get a joint certificate from IBM upon the successful completion and Award of the Degree
- Participate in various National & International Competitions
- Industrial visit to IBM for LIVE Industry experience
- Augment the chances of Global placement

## Advantages for Students

- As a part of this contemporary programme, students will learn through the curriculum as recommended by the Tech Giant IBM.
- The academia-industry partnership with IBM would help in building critical technical skills for tomorrow and knowledge about the emerging technology from day one.
- Work on real-life scenarios and embrace latest technologies while studying
- Gain access to enterprise software(s) used by prominent industries
- Get trained on the technology/ platform as designed/ recommended by industry experts
- Work on real-time application development / business case problems
- Get globally valid IBM certificate and digital badges upon the successful completion of the programme
- Better Career and Placement prospects

4-Year (AICTE Approved)

# B. TECH

## ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

(As per NEP 2020)

### Unique Courses

- Artificial Neural Networks
- Soft Computing
- Mobile Programming Using Android
- Data Analytics Using Python
- Pattern Recognition

### Career Opportunities

- Machine Learning Engineer
- AI Research Scientist
- Data Scientist
- Robotics Engineer
- Autonomous Systems Engineer

## About the Programme:

- A Bachelor of Technology (B. Tech) program in Artificial Intelligence (AI) and Machine Learning (ML) is cutting-edge in nature
- Designed for students passionate about the future of intelligent systems.
- Equips the students with theoretical foundation and practical skills to become an expert in this rapidly evolving field.
- Core areas of study include machine learning algorithms, deep learning techniques, natural language processing, computer vision, and robotics.
- A B. Tech in AI and ML graduate is highly sought-after by companies across various industries, including, but not limited to; tech giants, automotive manufacturers, healthcare providers, and financial institutions.
- This degree leads to exciting careers in areas like AI research, machine learning engineering, data science, robotics development, and more.
- It also provides a strong foundation for pursuing postgraduate studies in specialized fields of AI and/or ML.

## Program Highlights

- Dive deep into the realm of AI ML with a curriculum focused on advanced algorithms and deep learning techniques
- Explore interdisciplinary applications of AI in fields such as healthcare, finance, and autonomous systems
- Gain hands-on experience with cutting-edge tools and frameworks in our AI ML research labs
- Collaborate with faculty members for ground-breaking research projects in areas like neural networks and reinforcement learning
- Develop a comprehensive understanding of ethical and societal implications of AI technologies

## Why Artificial Intelligence Machine Learning (AI ML)

- Prepare for a career focused on technological innovation, with expertise in AI ML.
- Engage in experiential learning opportunities, including internships, industry projects, and hackathons.
- Join a supportive community of researchers and practitioners dedicated to push the boundaries of AI ML.
- Customize your learning experience with elective courses and specialized tracks in areas like computer vision or natural language processing.
- Access career resources and networking opportunities with leading AI ML companies and research institutions

2-Year (AICTE Approved)

# M. TECH

## Specialization in

COMPUTER SCIENCE  
AND ENGINEERING

ELECTRIC VEHICLE  
TECHNOLOGY

MANUFACTURING  
ENGINEERING

## Our Future-shaping Labs

- Engineering Graphics Lab
- Heat and Mass Transfer Lab
- Power Electronics Lab
- Microprocessors Lab
- Power System Lab
- Power Electronics Lab
- Heat & Mass Transfer Lab

## About the Programme:

- Diverse options: M. Tech degree leads to professional prospects in a variety of fields, including Neural Networks, Robotics Engineering, VLSI Design, and many more.
- M Tech, with different specialisations, leads to numerous opportunities for students to devote themselves to R&D.
- New technologies are reshaping the globe, and professionals with extensive technical expertise are in high demand. An M Tech degree is a valuable addition from this perspective.
- Pursuing an M. Tech degree after B. Tech provides ample time to gain in-depth technical knowledge on the subject and have more control over it.
- The M. Tech degree enhances an individual's professional qualifications and builds a strong social as well as professional network.
- There are opportunities to switch to better and more lucrative roles as one gains higher knowledge in the field of technology.
- Higher Study: After completing the program, candidates can enrol in PhD programmes to further their education

## About the M. Tech Experience

- The M Tech program nurtures the students to develop global competency in industry and academics alike
- Interaction with faculty members is a valuable outlet for expanding knowledge, clarifying doubts, and seeking advice for research or career-related matters
- It provides more than technical training to the students thus leading to sophisticated and advanced skills of analysis & problem-solving
- Pursuing an M. Tech degree helps to develop specialized knowledge, technical expertise, and research skills
- The experience of successfully completing an M. Tech program boosts confidence, thus opening doors to advanced career opportunities, or further academic pursuits like Ph.D.
- Join a supportive community of researchers and practitioners dedicated to push the boundaries of AI ML

## M. Tech Advantages @ AJU

- Mentored by JAIN (Deemed-to-be University), Bengaluru; A NAAC A++ and NIRF Top-100 HEI
- MOUs with TATA Motors, TPSDI, NTTF, IDTR, TCS, IBM, OP Jindal University, Raigarh; Sigma HTS (LLP), Reflex&Allen India Pvt. Ltd., for technical training, knowledge exchange, internship and placement support
- Student Chapters, Clubs, Associations, Societies; in association with Google, Microsoft, IEEE, CSI in addition to seven different clubs
- Exceptional facilities including Library, Museum, Technology enabled class rooms, Hi-tech Labs, Seminar Hall, Auditorium & Cafeteria
- Focus on Experiential learning through annual Excursion Trip, Educational Tours etc.
- Teaching Pedagogy: Workshops, Guest Speaker Sessions, Group Learning, Industrial Visits, Case Study Analysis Approach
- Personality grooming opportunity through public speaking club Toastmasters International AJU Chapter and Centre for Capacity Building & Human Resource Development
- Interdisciplinary approach to learning & program delivery
- Well-qualified and experienced faculty members, majority of whom are PhDs and alumni of premium HEIs
- Ragging-free campus

## Specializations:

- Mechanical Engineering**  
 Hands-on learning for career success: Develop practical skills and knowledge through workshops, labs, and industry-linked projects.
- Computer Science and Engineering**  
 Become a tech problem solver: Learn coding languages, programming principles, and gain hands-on experience through projects and labs.
- Electrical and Electronics Engineering**  
 Design, build, innovate: Learn about circuits, motors, controls, and more, opening doors to exciting careers or higher education in electrical engineering
- Mechatronics Engineering**  
 High-demand, high-tech: Gain the skills to design, build, and maintain innovative mechatronic systems. Promising career opportunities in robotics, automation await

## Build Your Future, Step by Step: Diploma in Engineering at A Glance

### VERSATILE CAREER PATHWAYS

The engineering domain is known for its diversity and wide range of opportunities. This versatility allows one to explore various industries and job prospects, including consultant, Jr. Engineer, Engineering executive, coaching professional, etc

### STRONG EARNING POTENTIAL

With a diploma in engineering, the student can become an expert with deep knowledge and skills. Whether the student has chosen fields like computer science & engineering or mechanical engineering, all provide a stable output with long-term financial success.

### CONTINUOUS LEARNING

To attain the best job in engineering, it is crucial to stay updated with the latest advancements and technologies. There are various engineering roles available that offer career advancement which can be utilized for professional growth in multiple manners.

### PRACTICAL SKILL DEVELOPMENT

A diploma in engineering is not only about theoretical learning but also allows for acquiring practical skills that employers demand. It provides opportunity for hands-on training programs, allowing students to use industry-standard tools, equipment and technologies.

## Explore Our Cutting-edge Labs

## M. PHARM IN PHARMACEUTICS

Pursuing an M Pharm in Pharmaceuticals offers several unique aspects that distinguish it from other pharmacy specializations

- In-depth Understanding of Drug Formulation and Development
- Focus on Drug Delivery Systems
- Exposure to Regulatory Affairs
- Hands-on Practical Training
- Interdisciplinary Knowledge
- Involvement in Cutting-edge Research
- Strong Industry Demand

## About the M. Pharm Program

- Pursuing a Master Degree program in Pharmacy is a dream for many aspirants, but some don't really understand the scope this industry holds. Most graduates pursue a Master's Degree in Pharmacy for the reasons:
- Graduates with an M. Pharm. degree are in high demand at the moment in the wake of the recent pandemic and various endemic outbreaks.
- High income potential across different-yet-related domains  
Valuable opportunities to work on government and privately-funded extensive research projects.
- Helps develop market-ready skills which are much in demand  
Diverse job roles across hundreds of industries

## M. Pharm in Pharmaceuticals

- Master's degree in pharmacy is one of the most sought-after options by the fresh B Pharm graduates who are exploring their career options.
- The program helps in further enhancing the skills of a B. Pharm degree holder towards research, employability and entrepreneurship.
- Pursuing a master's degree in pharmacy will reward you with multiple skills, including drug development, design, delivery, analysis and formulation, biopharmaceutics and pharmacokinetics.

## Why Pursue M Pharm in Pharmaceutics from School of Pharmacy, AJU

- NAAC Grade 'A' accredited university, reflecting its commitment to academic excellence, infrastructure, and quality education.
- The School of Pharmacy is equipped with modern laboratories, advanced research tools, and technology-driven infrastructure
- Highly qualified and experienced faculty members who bring a perfect blend of academic knowledge and industry expertise
- In-depth knowledge of drug formulation, delivery systems, and novel drug development
- Regular interaction with industry experts through workshops, seminars, and industrial visits
- A dedicated placement cell to facilitate opportunities with top pharmaceutical companies and research organizations

## Career Opportunities await with Master's Degree in Pharmacy

### After completion of M. Pharm. Degree one can

- Pursue a PhD in pharmacy with preferred specialisations, such as Pharmaceutics, Industrial Pharmacy, Pharmaceutical Chemistry, Pharmacognosy, Pharmaceutical Quality Assurance, Pharmaceutical Analysis Pharmacology, Pharmaceutical Regulatory Affairs etc.
- Pursue an MBA program for managerial level jobs in pharmaceutical industry.
- Moreover, LLB can be a great option to work as a corporate lawyer in pharmaceutical firms and institutions.
- Job opportunities in multiple industries, such as Drug control and Administration, as well as Food and Fermentation, Education, and many more.
- Work as a drug inspector or pharmacist and earn a steady livelihood
- Get a licence to run pharmaceutical firm or medical store

Approved by Indian Nursing Council (INC)  
Recognised by Jharkhand Nurses  
Registration Council (JNRC)

4-Year

## SCHOOL OF NURSING

B. Sc. Nursing Degree Equips For  
A Fulfilling Career In Diverse  
Healthcare Scenarios

- Education and Academia
- Hospitals and Healthcare Organizations
- Community Health Centers
- Nursing Homes and Long-Term Care Facilities
- Clinics and Physician Offices
- Public Health Organizations
- Research Institutions
- Non-Governmental Organizations (NGOs)

## Why choose Nursing as a Profession?

- WHO estimates a shortage of 4.5 million nurses and 0.31 million midwives by the year 2030
- The healthcare sector in India is expected to grow 12.59% by 2025 end
- The Indian Nursing Council estimates that India will need 4.3 million additional nurses by 2025
- As per the Medscape Nurse Career Satisfaction Report 2023, Nurses said they still strongly resonate with their career choice and the majority would choose nursing again

## Labs Available

- Nursing Foundation (including Adult Health Nursing) Lab
- Nursing Foundation (including Advanced Nursing) Lab
- Community Health Nursing Lab
- Nutrition Lab
- Obstetrics and Gynaecology Nursing Lab
- Child Healthcare Nursing Lab
- Pre-Clinical Science Lab [Anatomy, Physiology, Biochemistry (including Microbiology)]
- Computer Lab

Aware of the school's social fabric, Samaritan Club curates events that resonate.

- WORLD AIDS DAY observance in collaboration with NSS-In the form of Rally
- Observational Visit - R P Patel Cheshire Care Home, Sundernagar
- Nasha Mukta Bharat Abhiyaan at Hemkund Public School, Tinplate
- Health Camp to observe observe World Hypertension Week at Mohanpur village
- World Hepatitis Day observance at Harisundarpur village
- World Breastfeeding Week observance at Mohanpur village, Musarikudar Village and Community Health Centre, Gamharia

4-Year

**B Sc (Hons.) in  
ANAESTHESIA &  
OPERATION THEATRE  
TECHNOLOGY (A & OTT)**

Powered by

Step into the Heart of Surgery!  
Become

- Operation Theatre Technician
- Surgical Assistant
- Anaesthesia Technician
- Sterile Processing Technician

## Program Details

- Duration: 4 Years
- Eligibility: 10+2 level examination (or equivalent) cleared from a recognized board in science stream

## Program Overview

B Sc (Hons.) Program in Anaesthesia & Operation Theatre Technology equips the students with the skills and knowledge to excel as a vital member of the surgical team.

This four-year undergraduate program combines classroom learning with extensive hands-on training, enabling the student to:

- Assist surgeons and surgical teams during various procedures
- Prepare operating rooms and ensure sterility of surgical environments
- Maintain and operate specialised surgical equipment
- Adhere to strict safety protocols and infection control measures

## What You Can Expect

- Expedited Entry into Surgical Care
- A deep knowledge of surgical procedures, anaesthesia techniques, and patient monitoring through a blend of theoretical study and practical application.
- Gain hands-on experience with cutting-edge surgical and anaesthesia equipment, ensuring you are well-prepared to operate and troubleshoot in high-stakes settings

## Here's how Emversity empowers the Students

- **Career Guidance & Exploration** - workshops and individual consultations to help the students identify career goals within the anaesthesia and operation theatre technology field
- **Resume & Interview Skills Workshops** - workshops and mock interviews to hone students' communication, problem-solving, and critical thinking skills
- **Industry Connections** - strong relationships with hospitals, surgical centers, clinics, and healthcare agencies
- **Job Placement Assistance** - dedicated placement team actively seeks out job opportunities that match students' skills, career aspirations
- **Interview Preparation** - insights into anaesthesia and operation theatre technology interview questions and mock interviews

## Dedicated Placement Support

- Emversity understands the importance of a smooth transition from academics to the critical areas of anaesthesia and operation theatre management
- B Sc (Hons.) Program in Anaesthesia & Operation Theatre Technology program goes beyond academics, equipping students for success from day one
- Dedicated placement team of Emversity provides comprehensive support to help the students land their dream job in the dynamic world of medical laboratory services

4-Year

## **B Sc (Hons.) in MEDICAL LABORATORY TECHNOLOGY (MLT)**

Powered by

**Transform into a Diagnostic  
Expert! Become**

- Medical Laboratory Technician
- Laboratory Assistant
- Quality Control Specialist
- Research Assistant

## Program Details

- Duration: 4 Years
- Eligibility: 10+2 level examination (or equivalent) cleared from a recognized board in science stream

## Program Overview

- This four-year undergraduate B Sc Hons. program in Medical Laboratory Technology equips students to become vital members of a clinical laboratory team
- The MLT program not only focuses on academic and technical excellence but also ensures graduates are job-ready, and prepared to step into the workforce with confidence
- With dedicated placement support, Emversity aims to bridge the gap between academic achievements and professional success in the medical laboratory field
- Graduates would be poised for immediate employment in hospitals, clinics, diagnostic laboratories, and more, with a solid foundation to pursue further specialization or advance in their careers

## What You Can Expect

- Gain hands-on training, preparing you for immediate contribution to healthcare diagnostics
- Benefit from the expertise of experienced medical laboratory professionals who bring the latest practices and insights directly into your learning experience
- Acquire a deep understanding and proficiency in a broad range of laboratory tests—from haematology to microbiology—through intensive laboratory training and real-world applications

## Here's how Emversity empowers the Students

- **Career Guidance & Exploration** - workshops and individual consultations to help the students identify career goals within the anaesthesia and operation theatre technology field
- **Resume & Interview Skills Workshops** - workshops and mock interviews to hone students' communication, problem-solving, and critical thinking skills
- **Industry Connections** - strong relationships with hospitals, surgical centers, clinics, and healthcare agencies
- **Job Placement Assistance** - dedicated placement team actively seeks out job opportunities that match students' skills, career aspirations
- **Interview Preparation** - insights into anaesthesia and operation theatre technology interview questions and mock interviews

## Dedicated Placement Support

- Emversity understands the importance of a smooth transition from academics to the students' career as a Medical Laboratory Technician
- B Sc (Hons.) Program in Medical Laboratory Technician program goes beyond academics, equipping students for success from day one
- Dedicated placement team of Emversity provides comprehensive support to help the students land their dream job in the dynamic world of medical laboratory services

4-Year

**B Sc (Hons.) in  
RESPIRATORY  
TECHNOLOGY (RT)**

Powered by

**Transform into a Respiratory  
Technology Expert! Become**

- Respiratory Therapist
- Pulmonary Function Technologist
- Critical Care Specialist
- Researcher in Pulmonary Medicine
- Respiratory Care Manager

## Program Details

- Duration: 4 Years
- Eligibility: Candidate should have passed Senior Secondary Examination (10 +2) in science stream from any recognized Board

## Program Overview

- The four-year undergraduate B.Sc. (Hons.) program in Respiratory Technology is designed to train students as skilled professionals who specialize in managing respiratory health and treating pulmonary conditions
- The program integrates advanced classroom learning with cutting-edge simulation labs and extensive clinical exposure
- Students develop proficiency in operating respiratory equipment, managing critical care ventilation, conducting pulmonary diagnostics, and delivering therapeutic interventions for patients with respiratory conditions
- Graduates can pursue roles in hospitals, intensive care units, rehabilitation centers, and diagnostic labs along with rapidly advancing field of respiratory healthcare

## What You Can Expect

- Gain hands-on training in advanced respiratory care techniques, equipping you to contribute effectively to critical care and pulmonary rehabilitation teams
- Learn from experienced respiratory therapists who integrate the latest advancements and real-world applications into the learning journey, ensuring industry relevance
- Develop expertise in managing ventilators, conducting pulmonary function tests, and delivering oxygen

## What is the general career progression?

- **Start as a Respiratory Technician/Therapist** - Gain foundational experience in patient care by managing ventilators, administering oxygen therapy, and performing pulmonary function tests in hospitals, ICUs, or clinics
- **Specialize in Critical Care or Pulmonary Rehabilitation** - Advance to roles focusing on neonatal or adult critical care, chronic respiratory conditions, or rehabilitation therapy for post-operative and long-term care patients
- **Move into Supervisory or Managerial Roles** - Lead respiratory care teams as a senior therapist or department manager, overseeing operations, ensuring quality care, and mentoring junior staff
- **Explore Broader Opportunities** - Transition into healthcare education, medical device training and sales, or clinical research to contribute to innovation and advancements in respiratory healthcare

## Here's how Emversity empowers the Students

- **Career Guidance & Exploration** - workshops and individual consultations to help the students identify career goals within the Respiratory Technology Services field
- **Resume & Interview Skills Workshops** - workshops and mock interviews to hone students' communication, problem-solving, and critical thinking skills
- **Industry Connections** - strong relationships with hospitals, clinics, diagnostic laboratories, quality control centres, research centres and government agencies
- **Job Placement Assistance** - dedicated placement team actively seeks out job opportunities that match students' skills, career aspirations
- **Interview Preparation** - insights into Respiratory Technician or Quality Control Specialist or Research Assistant interview questions and mock interviews

4-Year

## B Sc (Hons.) in CARDIOVASCULAR TECHNOLOGY (CVT)

Powered by

Transform into a Cardiovascular  
Expert! Become

- Cardiovascular Technologist or Technician
- Cath Lab Technician
- Cardiac Lab Supervisor
- Cardiac Educator/Trainer
- Clinical Researcher in Cardiology

## Program Details

- Duration: 4 Years
- Eligibility: Candidate should have passed Senior Secondary Examination (10 +2) in science stream from any recognized Board

## Program Overview

- The four-year undergraduate B Sc Hons. program in Cardiovascular Technology is designed to train students as skilled professionals who play a critical role in diagnosing and treating cardiovascular conditions
- The CVT program combines classroom learning with state-of-the-art simulation labs and clinical exposure to prepare students for real-world challenges in cardiovascular care
- Students gain expertise in operating diagnostic equipment, assisting in invasive and non-invasive procedures, and understanding cardiac and vascular health management
- Graduates are equipped to pursue roles in hospitals, cardiac care units, diagnostic centers, and research laboratories along with rapidly advancing field of cardiovascular healthcare

## What You Can Expect

- Gain hands-on training in advanced cardiovascular diagnostics, preparing you for immediate contribution to cardiac care teams
- Learn from experienced cardiovascular technologists who bring cutting-edge practices and real-world insights into your learning journey
- Develop proficiency in a wide range of cardiac diagnostic techniques—from ECG monitoring to stress testing and echocardiography—through intensive practical training and clinical exposure

## What is the general career progression?

- **Start as a Respiratory Technician/Therapist** - Gain foundational experience in diagnostic tests like ECGs, echocardiograms, and stress testing, contributing to patient care teams in hospitals or clinics
- **Specialize in Critical Care or Pulmonary Rehabilitation** - Transition into roles focusing on invasive cardiology, electrophysiology, or advanced imaging techniques like vascular sonography
- **Move into Supervisory or Managerial Roles** - Lead teams as a senior cardiovascular technologist or laboratory manager, ensuring the quality and efficiency of cardiac diagnostics
- **Explore Broader Opportunities** - Transition into healthcare education, medical device sales, or research, contributing to the broader cardiac care landscape

## Here's how Emversity empowers the Students

- **Career Guidance & Exploration** - workshops and individual consultations to help the students identify career goals within the Cardiovascular services field
- **Resume & Interview Skills Workshops** - workshops and mock interviews to hone students' communication, problem-solving, and critical thinking skills
- **Industry Connections** - strong relationships with hospitals, clinics, diagnostic laboratories, quality control centres, research centres and government agencies
- **Job Placement Assistance** - dedicated placement team actively seeks out job opportunities that match students' skills, career aspirations
- **Interview Preparation** - insights into Cardiovascular Technician or Quality Control Specialist or Research Assistant interview questions and mock interviews

# L.L.B.(H)

Planning for professional life begins early in a student's law school experience and it is important to take the time to explore the numerous career paths available for the student, some of which are listed below

- Advocacy and Litigation
- In-house Counsel
- Private Practice
- Litigation Firms
- Corporate Legal Advisory
- Government Bodies
- NGOs and International Organizations
- Academics
- Judiciary
- Research
- Legal Process Outsourcing
- Higher Education
- Legal Journalism

## Post- Graduate Programme in Law

The 3-year LLB (Hons) offered by School of Law, ARKA JAIN University is a postgraduate professional degree programme that is open to graduates from all disciplines

**It is a qualifying degree for admission to legal practice.**

- The programme meets all requirements of the Bar Council of India.
- The programme is structured around interdisciplinary study of the law combined with experiential learning.
- The programme will bridge theory and practice. It is designed to produce lawyers who meet the challenges of the 21st century

Law Library

## Why L.L.B. (H) from AJU?

- NAAC A -Grade Accredited University with a focus on academic excellence and holistic development
- Duly affiliated with CLAT (except NLU), thus making the LL.B. (Hons.) programme as per the BCI norms
- Faculty members are experienced practitioners and scholars from top leading universities like NLUs, Central and State Universities
- Opportunity to participate in national and state-level moot court competitions
- Focus on legal aid activities such as legal literacy camps in villages and court visits to observe the live proceedings of National Lok Adalat
- Regular public lecture series - seminars, symposiums and workshops with eminent scholars and legal luminaries as resource persons
- State-of-the-art infrastructure - fully equipped library, connected campus, audio-visual enabled classrooms, hi-tech class rooms and top-of-the-line moot court.

## Program Highlights

- **Innovative Curriculum:** The L.L.B. (Hons.) program integrates contemporary legal studies with traditional knowledge, ensuring challenges.
- **Industry Linkages:** Collaboration with leading law firms and legal practitioners provides students with exposure to real-world legal practices through internships and workshops.
- **Technology Integration:** Focus on legal technology and cyber law ensure students are equipped to handle emerging digital legal issues.
- **Global Perspective:** The program includes comparative studies of international laws, preparing students for cross-border legal challenges.

## Unique Learning Opportunities

- **Legal Clinics:** Hands-on experience in legal clinics where students provide pro bono services under supervision, fostering a sense of social responsibility.
- **Legal Research Projects:** Involvement in legal research projects that contribute to legal scholarship and policy development.
- **Internship Programs:** Comprehensive internships at reputed law firms, courts, corporates, and legal departments that offer practical insights and networking opportunities.
- **Skill Development Workshops:** Regular workshops on negotiation, arbitration, drafting, and client counselling to hone practical legal skills.
- **Mock Trials and Debates:** Participation in mock trials and legal debates enhances critical thinking and public speaking skills.
- **Mentorship Program:** Personalized mentorship from experienced faculty and alumni to guide students through their academic and career journeys

# GET SPORTSPERSONIFIED!

ARKA JAIN University is at the forefront with regard to encouraging its students to participate in sports events, both in the University and outside. For this, the university provides every possible support. The students have made us proud by participating and winning many inter-university sports competitions at state and even national levels. Some of them have represented the state of Jharkhand in such categories as U-19 table tennis and cricket, that too in the female category.

The University offers scholarships during admission based on performance in sports as well as helps athletes who compete at state, national or international levels.

Runbhoomi, the annual sports meet witnesses outstanding performances from all the Schools of the university in various indoor and outdoor sporting events. Runbhoomi 2024 was organized as per the Fit India initiative of Government of India.

JAIN Premier League is an annual cricket tournament organized by AJU in a 20-20 format. Schools from across state participate and fight to lift the prestigious trophy.

The University has performed exceedingly well during couple of past editions of Khelotsav, the five-day state-level sports organized by the Central University of Jharkhand, achieving the second rank in overall champions category in the 2019 edition.

## LAKSHYA

### Series Of Talks

The University organizes guest lectures in which industry stalwarts share their wisdom with the students. The Lakshya series of talk has become the flagship guest talk event of the university as corporate honchos as well as known public administrators (like IAS, IPS officers) deliver spirited and erudite talks for the purpose of placement or career development highlighting the changing requirements of the industry and society at large. Students benefit greatly from such informative talks as they act as guiding force for them.

## SHIKHAR

### Entrepreneurial Conclave

The University has organized Shikhar - the Entrepreneurial Conclave over the past years, with the latest edition being organized in 2024, wherein stalwarts from Corporate India and doyens of the Start-Up culture of the country have promoted a sense of entrepreneurship among the participants. The success stories as shared by them motivated the AJU Fraternity. The hallmark of the event has been the freewheeling conversations of the guests, particularly with the students, thus guiding them how they can look for various entrepreneurial opportunities. Inspired by this conclave, students have put up various F & B, game-based and merchandise stalls during various events regularly organized by the University thus promoting an entrepreneurial culture in the campus and beyond.

## WORKSHOPS

### By External Experts For Personality Development

The university is committed towards ensuring that the students get due exposure with regard to honing their soft skills apart from the hard skills. In this regard, workshops dedicated towards personality development are regularly organized wherein external experts, having proven track record of training, are invited in the campus and students from across the university attend these workshops gaining insights into how they can improve their personality traits and appear in interviews, whether be it for employment or for higher studies purpose. These workshops have proved to be extremely effective based on the feedback received from the participants as they have enabled the students towards believing in themselves and carving a niche!

# AJU NSS & NCC WINGS IN ACTION

## NCC

National Cadet Corps (NCC) at AJU invites students to work on volunteer basis towards nation development through outreach activities. NCC works towards augmenting the students' personality and honing their skills-set. After completion of training and fulfilling other conditions like attendance etc., the candidate gets certificate from the NCC.

## NSS

National Service Scheme popularly known as NSS became functional at AJU in the year 2019 to involve students with the primary aim being to develop the personality of student volunteers through community services thus performing outreach and extension activities.

# Centre for Capacity Building and Human Resource Development (CCHRD)

The CCHRD aims to enhance the skills and capabilities of students, faculty, staff members, and external stakeholders

## Purpose of Establishment

The CCHRD is dedicated to fostering growth and development through targeted capacity-building initiatives for the students. Further, it aims to create a supportive environment for continuous learning and professional advancement for faculty and staff members as well as external stakeholders.

## Benefits of CCHRD

- **Skill Enhancement for Students:** Providing specialized training, courses and workshops to equip students with industry-relevant skills and competencies.
- **Professional Development for Faculty and Staff:** Offering professional development and faculty development programs to enhance teaching methodologies, research capabilities, and administrative efficiency.
- **Support for External Stakeholders:** Engaging with industry partners and community members fostering collaboration, and sharing expertise in the form of management development programs.
- **Resource Hub:** Serving as a central resource for accessing the latest knowledge, tools, and techniques in various fields of study and practice.
- **Career Advancement:** Facilitating career growth and opportunities for all participants by bridging the gap between academic knowledge and practical application.

**EXPANDING  
YOUR HORIZONS,  
THROUGH  
HOLISTIC LEARNING  
EXPERIENCES**

ARKA JAIN University believes that students should be provided with multiple opportunities to explore learning with different perspectives. To achieve this, the various Schools organize activities focused on participative learning, experiential learning and problem-solving sessions. The University understands well that such activities are integral part of the entire teaching-learning process thus enabling the students towards developing a critical thinking approach along with practical insights.

# JAMSHEDPUR

The Steel City Of India / Pittsburgh Of India

Jamshedpur, also known as the Steel City of India/ Pittsburgh of India, is the largest and the most populous city of Jharkhand and the first planned industrial city of India. It is regarded as the industrial capital of Jharkhand. It is home to a host of Tata companies, namely, Tata Steel, Tata Motors, Tata Power, Lafarge Cement, Tinsplate, Timken India, Telcon, TRF, Tata Bluescope, JAMIPOL, TAYO, Tata Technologies, Tata Hitachi, Tata Ryerson, Tata Pigments among others along with other leading industrial names. The city was the outcome of the vision of its founder Jamshetji Tata. The city is known for its greenery, cleanliness, planned layout, and has a rich cultural heritage. It is one of the first smart cities of India and was ranked as the fifth cleanest city of India in the year 2023. The city is consistently ranked among the best in India in terms of quality of life it offers. There is a varied and powerful industrial base in the Adityapur Industrial Area of the city, one of the largest industrial centers in India. The Adityapur Industrial Estate has been Asia's largest industrial hub for a while.

ARKA JAIN University, on the virtue of being a leading HEI of the region, has tie-ups with majority of the Tata companies, as mentioned above as well as with other regional and local industries, for the purpose of training, projects, internships, final placement and overall teaching-learning process. The University offers many programs in collaboration with industry players in different domains. This exhibits the unwavering commitment of the University of working with the leading industries of the city thus taking academe-corporate connect to the next level.

The founder of this majestic city, Jamsetji Tata, vouched for open spaces and areas promoting outdoor and sports activities. The city boasts of many well-kept and beautiful parks. Jubilee Park and Dorabji Park are worth paying a visit. The city has lots of tourist destinations to explore.

Nature lovers are in for a real treat with the following places to visit and experience nature first-hand:

- **HUDCO LAKE**
- **JUBILEE LAKE**
- **DIMNA LAKE**
- **DALMA HILLS**
- **RIVERS MEET OR DOMOHANI**
- **TATA STEEL ZOOLOGICAL PARK**

As far as sports events are concerned, Jamshedpur offers the following centres for athletic growth:

- **JRD TATA SPORTS COMPLEX**
- **KEENAN STADIUM**
- **TATA FOOTBALL ACADEMY**
- **TATA ARCHERY ACADEMY**

The City is home to Jamshedpur Football Club (FC), which competes in the Indian Super League (ISL), the top flight of Indian football. It is the only club in the top flight to have self-owned stadium and training facilities.
