Description

IQVIA ([www.iqvia.com](http://www.iqvia.com)) is a global human data science company focused on the pharmaceutical and biotechnology industry. We are committed to providing solutions that enable healthcare companies to innovate with confidence, maximize opportunities and, ultimately, drive healthcare forward. We do this via breakthroughs in insights, technology, analytics and human intelligence that bring the advances in data science together with the possibilities of human science.

The Custom Research group within IQVIA provides rapid, convenient, and effective communication between pharmaceutical companies, healthcare professionals and patients. We conduct market research studies to address critical strategic and tactical business questions faced by our biopharmaceutical clients. We employ a wide variety of methodologies to best address client objectives. Outstanding strategic thinking, analytical skills, and communication skills are essential to our business.

**Job Summary:**

We are seeking bright, motivated candidates for Market Research Intern position. The Market Research Intern will be responsible for assisting senior analysts/ stakeholders in project execution and client deliverables.

#### Essential Duties and Responsibilities:

Help define market research questionnaires/ discussion guides that meet client and business objectives

Analyze physician responses to market research questions

Produce charts and graphs that clearly depict results

Create final presentations with insights, analysis, and recommendations

Perform quality control (QC) checks which includes data verification, format review,

proofreading, comparison to prior deliverables, etc

Conduct competitive analysis

Research potential clients, products, or disease areas in preparation for sales and marketing meetings

#### Qualifications:

Masters in pharmacy/ Biochemistry or Chemistry/ Medical Microbiology/ Biotechnology

Excellent analytical skills

Expertise in Excel and PowerPoint

Excellent written and verbal communication skills

Ability to learn quickly and work independently with minimum guidance

Ability to exercise judgment and work in a fast-paced environment

Ability to be a team player and effective communicator

Market research and/or pharmaceutical industry experience is a plus
