Description

Profile / Role / Designation * Graduate Trainee

Job Description (Please share in separate attachment) *

About the Role: As a Graduate trainee at Kyndryl, youll be an essential part of our technical delivery team, supporting the deployment and management of IT infrastructure projects. This role is perfect for individuals with a technical background who are eager to build hands-on experience and grow within a dynamic IT environment. You will work closely with senior team members and receive mentorship to develop your skills in real-world projects.

What Youll Do:

- Assist in deploying and configuring infrastructure solutions.
- Support troubleshooting and resolving technical issues related to hardware, software, database,

storage, tools and network systems.

- Monitor alerts and troubleshoot following standard operating procedures
- Help with performance monitoring and system updates.
- Perform patching and upgrades for operating systems, databases, storage, tools and networking systems.
- User ID creation, deletion and modification
- Work closely with team members to document processes, maintain records, and track project progress.
- Participate in testing, maintenance, and improvement of IT systems.
- Communicate effectively with team members to ensure project alignment and success.

Educational Background:

- Diploma in Computer Engineering, Information Technology, Electronics and Communication Engineering, Electrical Engineering, or a related technical field.

What Were Looking For:

- Good understanding of Windows/Linux/Unix operating systems and Server Virtualization VMware, Windows Hyper-V and Nutanix

- Basic knowledge of Database, storage, backup, network and tools
- Understanding on Domain Controllers, DNS, DHCP and FTP
- Basic understanding of IT security and best practices
- Good understanding of PowerShell and Python scripting
- Basic knowledge of Ansible automation
- Understanding of hardware setup and maintenance.
- Willingness to learn and work on technical projects.
- Ability to prioritize tasks and manage time effectively.
- Strong attention to detail and commitment to high-quality work.
- Strong Analytical and Problem-Solving Skills.
- Proficiency in PowerPoint, Word & Excel skills.

Preferred:

- Exposure to Cloud Platforms (AWS/Azure/GCP)
- Certification on Microsoft Windows or Redhat Linux or SUSE Linux or Cisco

Your Growth at Kyndryl: You will be supported with training and on-the-job learning.

This role offers a great starting point for building a long-term career path at Kyndryl. You'll have opportunities to develop into more senior positions, such as Technical Engineer or Infrastructure Specialist, as you gain experience and grow with us.
