ANALYSIS OF UNION BUDGET - 2025

Date of Event	04-02-2025
Name of the Event	Analysis of Union Budget - 2025
Type of the Event	Experiential Learning
Conducted by	Prof. Mukul Pandey & Prof. Shailesh Kumar Dubey
No. of Participants	35

OBJECTIVES:

Enhance Understanding of the Union Budget: To provide students with a comprehensive understanding of the Union Budget 2025, including its key allocations, policy decisions, and their potential impact on various sectors of the economy.

Encourage Critical Analysis: To promote critical thinking and analysis among students regarding the strengths and weaknesses of the Union Budget, enabling them to assess the practical implications of fiscal policies on the nation's growth and development.

Promote Public Policy Awareness: To raise awareness among students about the importance of public policy, taxation, government spending, and economic reforms, thereby encouraging active participation in national discourse.

Provide a Platform for Presentations: To offer students the opportunity to present their takeaways from the Union Budget, share insights, and discuss the implications for various sectors, industries, and the general public. This not only fosters their experiential learning and increases their overall involvement but also increases their willingness to participate in the discussions and enhance their learning acumen as a whole.

Develop Presentation and Communication Skills: To enhance students' communication and public speaking skills by encouraging them to effectively convey their analysis and opinions about the Union Budget.

DETAILS:

The event "Analysis of Union Budget 2025" was organised by the Department of Management – MBA. The event started with a brief introduction of the Union Budget, its overview and significance, which were discussed by the students. After a brief introduction that set the tone by defining key terms such as fiscal deficit, direct and indirect taxes, and capital expenditure, the student groups presented various aspects of the Union Budget - 2025.

One group focused on the major announcements and the distribution of funds across sectors; while another group examined the budget's real-world impact, examining how it affected businesses, industries, and regular citizens. The third group compared this year's budget with previous ones, identifying trends and changes; and others examined the budget's opportunities and challenges, providing a balanced perspective of its possible effects.

Students had a better understanding of how the government takes financial decisions and why they are important by the end of the session. They were aware of how the Union Budget affects everything from financial matters to corporate expansion and the nation's economic course. The students improved their critical thinking skills by analysing real-world regulations in addition to the actual topic. This also gave participants the opportunity to practice critical life skills, such as conducting in-depth study on difficult subjects, cooperating with others, and expressing views with assurance. All in all, it fostered a careful, knowledgeable approach to public policy and linked classroom instruction to the outside world.

TAKEAWAY (OUTCOMES):

Comprehensive Understanding of the Union Budget:

Students gained a deeper insight into the Union Budget - 2025, including its key allocations and policy decisions. They were able to analyze how these decisions impact different sectors of the economy, such as healthcare, education, infrastructure, and defence.

Critical Evaluation of Fiscal Policies:

Through analysis, students learned how to assess the strengths and weaknesses of the Union Budget. They identified areas of concern and potential benefits, providing a balanced understanding of how fiscal policies affect the nation's growth, economic stability, and social development.

Increased Awareness of Public Policy:

Students developed a clearer understanding of the significance of public policy, government spending, and taxation. They recognized the broader impact of fiscal decisions on public welfare and economic reforms, highlighting the importance of informed participation in the national discourse.

Improved Presentation and Communication Skills:

By presenting their analyses and insights, students improved their public speaking and communication skills. They learned how to effectively articulate their views and engage in meaningful discussions, which helped them build confidence in presenting complex information to a wider audience.

Stimulated Learning:

The opportunity for students to present their takeaways from the Union Budget - 2025 fostered active experiential learning, allowing them to apply theoretical concepts to real-world economic scenarios. By sharing insights and discussing the budget's implications across various sectors, students became more engaged and confident in their ability to analyze and contribute to discussions on national economic policies. This increased their overall involvement, enhanced their willingness to participate in future debates, and sharpened their critical thinking and communication skills, ultimately improving their learning acumen and understanding of complex economic issues.
