EYE SCREENING CAMP

Date of Event	15.11.2025
Name of the Event	Eye Screening Camp
Type of the Event	Outreach Extension Activity
Conducted by	Mr. Pranab Das, Department of Optometry in collaboration with Unnat Bharat Abhiyan, NSS and IKSHANA Club, ARKA JAIN University
No. Of Student's Participants	06

OBJECTIVE:

The Department of Optometry, Arka Jain University, in association with the National Service Scheme (NSS), conducted an eye screening camp on 15th Nov 2025 at Ambadobi-The Tourism Village, Jharkhand. The primary objective of the Eye Screening Camp is to promote preventive healthcare by providing accessible, early detection of common vision-related issues.

The camp received active support from students, school staff, NSS, IKSHANA Club, Unnat Bharat Abhiyan volunteers, and a skilled team of optometrists from Arka Jain University. The event aims to raise awareness about the importance of regular eye examinations, identify potential health risks at an early stage, and guide participants toward timely medical intervention and appropriate treatment. Additionally, the camp seeks to improve overall community well-being by encouraging healthy lifestyle practices and reducing the burden of preventable diseases through education, screening, and referral services.

DETAILS:

The Department of Optometry, School of Allied Health Sciences successfully organized the An Eye Screening Camp. Our team started the day by travelling to Ambadobi, Jharkhand. The setup for the eye screening camp took about thirty minutes. The program commenced after the introduction of the importance of eye examination.

After the orientation, 40 individuals underwent individual examinations as part of eye screening program. Case history, visual acuity evaluation, torchlight examination, static retinoscopy, and subjective refraction were all part of the routine battery of tests used. Each participant's refractive error status was ascertained using subjective refraction results. All medical observations were methodically entered into the Outreach Activity Register of ARKA JAIN University and later brought back to the campus for further verification and record maintenance. The camp officially ended at 3:30 PM, following which all medical equipment was safely packed and transported back to the university.

TAKEAWAY (OUTCOMES):

An Eye Screening Camp was conducted successfully and received active participation from the community. A significant number of individuals benefited from the free eye screening services provided during the camp. The eye screening helped in the early identification of common vision problems, refractive errors, and eye-related conditions. Participants requiring further medical attention were counselled and referred to nearby hospitals or specialists for advanced diagnosis and treatment. The participants expressed high satisfaction with an Eye Screening Camp. They appreciated the initiative and thanked the organizers for providing free and accessible healthcare services.

The camp increased awareness about the importance of eye care. Many participants gained valuable knowledge about preventive healthcare practices, healthy lifestyle habits, and eye hygiene. Overall, the participants felt that the camp was very beneficial and requested that such eye screening camps be conducted regularly in the future to support community well-being.
