Ph.D

ABOUT THE Ph.D PROGRAMME

The Doctor of Philosophy (Ph.D) programme - a symbol of scholarly excellence, intellectual independence, and original contribution to knowledge, as offered by ARKA JAIN University; is designed to promote a strong research culture, innovation, and develop advanced analytical, methodological, and critical thinking skills among the research scholars.

The programme is structured to promote original research and innovation across diverse disciplines—**Commerce, Management, Computer Science, Mechanical Engineering, Electrical & Electronics Engineering, Biotechnology, Pharmacy, English, Law, Journalism & Mass Communication.**

Scholars enrolled in the programme embark on a rigorous academic journey. They begin with Ph.D Course Work to build a strong theoretical and methodological foundation, followed by extensive research in their chosen research domain.

Throughout the programme, scholars are expected to publish their findings in reputed journals, participate in relevant conferences where they present their ongoing research work, engage in academic discourse, and contribute to the global body of knowledge in their chosen research domain.

The research process culminates with the submission of an original doctoral thesis, which is evaluated through a public Viva-Voce examination. Successful completion of these requirements earns the scholar the prestigious Doctor of Philosophy degree.

The Ph.D programme at ARKA JAIN University is governed by the Academic Council of the University, is fully aligned with the UGC (Minimum Standards and Procedure for Award of M.Phil. / Ph.D Degrees) Regulations, 2022 and offered as per the AJU Ph.D regulations 2023.

The University is committed to provide a supportive and intellectually stimulating environment where research scholars can thrive and make meaningful contributions to their respective domains.

KEY FEATURES OF THE Ph.D PROGRAMME:

- The Ph.D is recognized as one of the highest academic degrees attainable, reflecting a scholar's expertise, scholarly rigor, and ability to conduct independent research.
- The Ph.D is an advanced research degree programme pursued after the completion of a postgraduate qualification. It involves three or more years of independent, in-depth research on an original topic of significance to the chosen discipline.
- The Part-Time Ph.D Programme is offered in a structured, on-campus mode (distance learning is not permitted), ensuring that scholars benefit from direct interaction, mentorship, and supervision by experienced academic and industry experts.
- A hallmark of the programme is the requirement to produce a doctoral thesis that represents a substantial and original contribution to the existing body of knowledge in the chosen research domain.
- Upon successful completion of all programme requirements — including thesis defense — the research scholar is conferred the prestigious academic title of '**Doctor**'.
