SKILL-BASED WORKSHOP ON POWER BI & APPLICATION WITH EXCEL FOR B.COM STUDENTS

| | |
|----------------------------|---|
| Date of Event | 9th February 2026 and 10th February 2026 |
| Name of the Event | Power BI & Application with Excel |
| Type of the Event | Collaborative activity with Venturing Digitally |
| Conducted by | Dr. Ankita Singh. Dr. Rama Singh |
| No. Of Participants | 67 |

OBJECTIVE: The objective of the workshop was to enhance students’ practical knowledge of data analysis, visualization and business intelligence tools, which are highly relevant in today’s data-driven business environment.

DETAILS:

The Department of Commerce organized a two-day Skill-Based Workshop on “Power BI & Application with Excel” for the students of B.Com in collaboration with CCHRD & Venturing Digitally on 9th February 2026 and 10th February 2026. The workshop aimed to enhance students’ knowledge and practical skills in data analytics and visualization using modern tools. The workshop aimed to equip students with essential skills in Microsoft Excel and Power BI, enabling them to analyze data effectively and present meaningful insights through interactive dashboards and reports. The sessions were designed to bridge the gap between theoretical learning and practical industry requirements.

During the workshop, the resource persons from Venturing Digitally introduced students to the fundamentals of Power BI, including its importance in business analytics, data visualization techniques, and the creation of dynamic dashboards. Students were also guided through the integration of Excel data with Power BI, helping them understand how large datasets can be transformed into actionable insights.

On the first day, the session focused on advanced Excel techniques, including data cleaning, data transformation, pivot tables, and the use of formulas for efficient data management. Students were given hands-on exercises to strengthen their understanding of Excel as a foundational tool for data analysis.

On the second day, the workshop emphasized Power BI applications, where students learned about data import, data modelling, visualization tools, and dashboard creation. The resource persons demonstrated how Power BI can be used in real business scenarios

to support decision-making processes. Students actively participated in the practical sessions and created sample dashboards using real datasets.

Overall, the Skill-Based Workshop on Power BI & Application with Excel proved to be an enriching learning experience for the B.Com students. The

TAKEAWAY (OUTCOMES):

The workshop concluded with an interactive discussion where students shared their learning experiences and clarified their doubts regarding the practical applications of Power BI and Excel in business analytics. The program was highly beneficial for the participants, as it enhanced their analytical thinking, technical proficiency, and employability skills.
