Power BI and Application with Excel

Date of Event	9th -10th February 2026
Name of the Event	Power BI and Application with Excel
Type of the Event	Skill based Training
Conducted by	Centre for Capacity Building and Human Resource Development (CCHRD)
Resource Persons	Mr. Vishnu Gupta and Ms. Muskan Sadera
No. of Participants	73

OBJECTIVE: The workshop on *Power BI and its Application with Excel* was organized to enhance students' analytical and data visualization skills. It aimed to provide practical exposure to industry-relevant tools used for business intelligence and reporting. The session focused on bridging the gap between theoretical knowledge and real-world data applications. It intended to strengthen students' ability to interpret data, create dashboards, and make data-driven decisions. The workshop also sought to prepare students for evolving industry demands in analytics and reporting roles.

DETAILS: The workshop was conducted by the Centre for Capacity Building & Human Resource Development (CCHRD) in association with the Department of Commerce, in collaboration with Venturing Digitally Pvt. Ltd. (VDPL). The session covered key concepts of Power BI, including data importing, cleaning, modelling, and visualization. Students were introduced to creating interactive dashboards and integrating Excel data into Power BI for advanced analysis. Hands-on demonstrations and practical exercises were included to ensure experiential learning. The session was interactive and encouraged students to apply concepts in real-time.

OUTCOME: The workshop resulted in enhanced understanding of data analytics tools among students. Participants developed the ability to transform raw data into meaningful visual insights using Power BI and Excel. They gained confidence in designing reports and dashboards for business decision-making. The session improved their technical competency and industry readiness. Overall, the workshop contributed to strengthening their analytical thinking and employability skills.
