A FIELD VISIT TO STUDY ABOUT JAN AUSHADHI INITIATIVES IN INDIA

Date of Event	27.02.2026
Name of the Event	A Field Visit to Study About Jan Aushadhi Initiatives in India
Type of the Event	Educational Field Visit & an Extension Outreach Activity Beyond Classroom
Conducted by	School of Pharmacy
No. Of Participants	60

OBJECTIVE:

The primary goal of this visit is to provide students with a first-hand understanding of the government's initiative to provide quality generic medicines at affordable prices. Students are expected to: Study the operational framework of a Jan Aushadhi Kendra. Understand the mission of the Pradhan Mantri Bhartiya Janaushadhi Pariyojana in providing quality healthcare at affordable prices. Observe the distribution and management of generic drugs. Study the price disparity between generic and branded medicines, and educate students on how these initiatives reduce "out-of-pocket" expenditure for the common citizen. The visit is designed to bridge the gap between classroom theory and real-world pharmacy practice.

DETAILS:

The School of Pharmacy organized a field visit to study the Jan Aushadhi initiatives in India on 27th February 2026 from 2:00 PM onwards at Jan Aushadhi Kendra, Adityapur. The visit aimed to provide students with practical exposure to the functioning of government-supported generic medicine outlets. It was highly beneficial as it bridged the gap between theoretical knowledge and practical learning, enhanced professional competence, and improved understanding of public health initiatives. The exposure also developed students' observational and analytical skills, contributing to their overall professional growth as future pharmacists.

TAKEAWAY (OUTCOMES):

The participants gained a clear understanding of the difference between generic and branded medicines and the importance of affordable healthcare. They learned about the eligibility criteria for opening a Jan Aushadhi Kendra and gained practical knowledge of drug procurement, pricing, distribution, and supply chain logistics. The visit also helped them recognize the professional responsibility of pharmacists in promoting universal healthcare access in India.
