NOTICE SCHOOL OF NURSING

Ref. No: AJU/SON/161/26

Date: 24/03/2026

This is to inform all concerned students that the School of Nursing is organizing a **Practical Demonstration Session on Growth and Development of Schooler** as part of Child Health Nursing I.

The session is designed as a **Demonstration-Based, Skill-Based, and Experiential Learning Activity**, aimed at enhancing students' understanding and clinical skills in assessing growth parameters and developmental milestones of **school children**.

Target Audience: B.Sc. Nursing 5th Semester Students (Batch 2023–2027) posted in the Pediatric Wards

Date: 27th March 2026

Venue: Mahatma Gandhi Memorial Medical College and Hospital

All students are strictly instructed to attend the session in proper clinical uniform and maintain discipline, professional behaviour, and hospital protocol during the demonstration. Active participation and Patient Interaction is mandatory and looking forward in making this session effective and successful.

PRACTICAL DEMONSTRATION SESSION ON GROWTH AND DEVELOPMENT OF SCHOOLER

Date of Event	02.04.2026
Name of the Event	Practical Demonstration Session on Growth and Development of Schooler
Type of the Event	Experiential Learning Program
Conducted by	School of Nursing, ARKA JAIN University
No. of Participants	21

OBJECTIVE:

To educate parents, caregivers, and nursing personnel on assessing the growth and development of school-age children, promote awareness of appropriate measurement and evaluation techniques, and strengthen practical skills to support optimal health and developmental outcomes in schoolers.

DETAILS:

The School of Nursing, ARKA JAIN University, organized a session on Growth and Development Assessment of School-Age Children on 2nd April 2026 at the Pediatric Ward of Mahatma Gandhi Memorial Medical College and Hospital, as the school-age group was not available on the initially scheduled date. The session was conducted by Vth Semester B.Sc. Nursing students as part of their academic learning under the subject of Child Health Nursing–I, under the guidance of Prof. Shilpa J., Vice Principal and Unit In-Charge, and under the supervision of Ms Disha Bhattacharyya, Clinical Supervisor. The programme followed a demonstration-based, skill-oriented, and experiential learning approach, where students effectively demonstrated appropriate measurement and observation techniques for assessing the growth and development of school-age children. The session emphasized the importance of accurate evaluation and age-appropriate, child-centered care, while actively engaging parents, caregivers, and staff nurses in an interactive learning environment. The session proved highly beneficial in enhancing the knowledge and practical skills of caregivers and nursing staff, with students demonstrating strong communication, teamwork, and professional competence, while promoting awareness of optimal health and developmental outcomes in school-age children. Due to institutional restrictions, photographs of the session could not be taken. The success of the programme reflects the visionary leadership of our Principal, Prof. (Mrs) Ginu Anie Joseph, and the continuous support of our Honourable Chairman, Prof. Dr S. S. Razi, thereby strengthening hospital-oriented, skill-based, and experiential nursing education.

TAKEAWAY (OUTCOMES):

The session proved highly beneficial, enhancing practical understanding of the growth and development of school-age children through an interactive, demonstration-based approach, while reinforcing the importance of accurate assessment and age-appropriate, child-centered care.
