ROLE PLAY ON POSTPARTUM HEMORRHAGE AFTER ABNORMAL DELIVERY

Date of Event	17.04.2026
Name of the Event	Role Play on Postpartum Haemorrhage After Abnormal Delivery
Type of the Event	Participative learning Program
Conducted by	School of Nursing
No. of Participants	67

OBJECTIVE:

The objectives of the role is to illustrate the causes and early detection of postpartum haemorrhage after an irregular delivery, should emphasise timely care and emergency measures, to stop bleeding, to stress the need of medical professionals and prompt referrals in avoiding maternal problems and to raise public awareness of warning indicators and the necessity of prompt medical attention.

DETAILS:

The School of Nursing, ARKA JAIN University organized a Role Play on Postpartum haemorrhage after abnormal delivery for B.Sc. Nursing VII semester (Batch 2022-2026) in Mahatma Gandhi memorial (MGM) medical college and Hospital from 11:00am - 12:00pm on 17/04/2026. Students actively participated in the role play by portraying different roles such as mother, husband, mother-in-law staff nurse, doctor. The role play began in the home setting where the mother experienced excessive bleeding and weakness after delivery, but the family failed to recognize the seriousness of the condition. The scene changed in the hospital setting, the nurse and doctor promptly assessed the condition and initiated emergency management, including uterine massage, administration of uterotonic drugs, IV fluids, and continuous monitoring. The role plays effectively demonstrated the critical role of healthcare professionals in managing postpartum haemorrhage and saving the life of the mother. The health education emphasizing the importance of institutional delivery, recognizing danger signs such as heavy bleeding, dizziness, and weakness, and seeking immediate medical care. The event was made possible through the combined efforts of the Principal, Prof. Mrs. Ginu Anie Joseph & Vice Principal, Prof. Mrs. Shilpa. J along with the Event coordinator.

TAKEAWAY (OUTCOMES):

Students learnt to utilize caring, critical thinking to synthesis Knowledge derived from physical, biological, behavioural sciences and humanities, in the practice of professional nursing & midwifery and communicate effectively with patients, peers and all health care providers.
